REMARKS.

I. It is of much importance that the line to Areacode, which is at the head of the navigation of the Beypore river, should be opened for dry weather cart traffic before the Coffee season of 1866.

II. An important line of communication, and the necessity for the bridge was strongly urged by the local authorities.

III. Required for occupation by a Regiment of European Infantry, on these Barracks being vacated by the Regiment of European Cavalry, which is about to be removed to the New Barracks on the Race Course. The necessity for the early commencement of these buildings has been strongly urged by His Excellency the Commander-in-Chief, as the present Infantry Barracks cannot be vacated for conversion, as contemplated, into Commissariat Godowns, until sufficient accommodation has been elsewhere provided.

IV. This transfer was recommended by the Superintending Engineer, in order to provide funds for the construction of certain calingulahs and sluices which are much needed in the Nellore Disirict.
