*Proceedings of the Madras Government, Public Works Department,
21st December 1865.*

No. 395. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 15th December 1865, No. 1,538 :—

In reply to Memorandum No. 249, dated 13th instant, I have the honor to inform you that estimates for four Solitary Cells for the Artillery at Trichinopoly were submitted to the Deputy Assistant Quarter Master General, Southern Division, on the 20th September; they were returned on the 11th November, in order that the plans might be made to correspond with the standard plan referred to in G. O. No. 2,810, dated 22nd September, and were forwarded to Colonel Greenaway in order that alterations might be made in communication with the Military authorities. I have pointed out to the Deputy Assistant Quarter Master General that standard plans are designed as though unlimited space were available for the buildings, and that this is never the case when old buildings have to be added to. In the standard plan the solitary cells are connected with the quarter guard, lock-up, wash-houses, and privies; at Trichinopoly all these buildings are detached, and hence I presume the difficulty of determining where the solitary cells for the Artillery are to be placed.

2. Solitary cells for the European Infantry at Trichinopoly appear not to be required, for in forwarding the Quarter Master General's letter on the subject, the Deputy Assistant Quarter Master General did not ask for an estimate, as His Excellency the Commander-in-Chief considers that with only two Companies at Trichinopoly there can be no difficulty in finding prison accommodation for prisoners on the new system, without putting Government to the expense for new buildings.

Sir,

In reply to Memo No 249 dated
 13th Instant I have the honor to inform
 you that Estimates for four solitary
 calls for the Artillery at Trichinopoly
 were submitted to the Deputy Assist-
 ant Quarter Master General Southern
 Division, on the 20th September they
 were returned on the 11th November, in
 order that the Plans might be made
 to correspond with the Standard
 Plan referred to in L. O. No 2810,
 dated 22nd September, & were forwarded
 to Colonel Freeman in order that
 alterations might be made in Com-
 munication with the Military
 Authorities. I have pointed out
 to

to the Deputy Assistant Quarter
Master General that Standard Plans
are designed as though unlimited
space were available for the Buildings
and that this is never the case when
to Buildings have to be added to.
In the Standard Plan the Solitary
cells are connected with the Quarter
Guard, Lockup, Wash houses and
Privies; at Trichinopoly all these
Buildings are detached and hence
I presume the difficulty of deter-
mining where the Solitary Cells for
the Artillery are to be placed.

Solitary Cells for the European
Infantry at Trichinopoly appear
not to be required, for in forwarding
the Quarter Master General's Letter
on the subject, the Deputy Assistant
Quarter Master General did not
ask for an Estimate as His
Excellency the Command-in-Chief
considers that with only two Com-
panies at Trichinopoly, there can be
no

no difficulty in finding prison ac-
commodation for Prisoners on the
new system without putting Co-
mmission to the expense for new
Buildings.
