G.O. No. 841

556-557

Press
Mis.

Dated 27 - 3 - 1865.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
27th March 1865*

No. 556. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 13th March 1865, No. 6,022.—

Sir,

1. I have the honor to forward, for the sanction of Government, a plan, estimate Rupees 800, and specification for constructing a flood calingulah in the west bank of the Poiney anicut southern channel, near the Yagumboor tank, in the Wallajah Range, North Arcot District.

1 Plan
1 Abstract estimate
1 Specification

2 During the rains of November last, the water that flowed into this channel from the hills to the north of Lalpet was so excessive, notwithstanding the closing of the head sluice at the anicut, as to endanger the safety of the tanks to the south of Lalpet, and in the neighbourhood of Raneepet. Fortunately the surplus waters found an outlet through a breach in the west bank of the Poiney anicut southern channel at Mangavil. It is to obviate the injuries that may arise to the south channel, and the tanks alluded to, and to utilize the surplus water for supplying the large tanks of Yagumboor and Yekarambura Melloor, that the calingulah is now proposed.

• Rupees 800

3. The Collector has countersigned the estimate* in token of approval, but it is too late for execution this year, and I beg to recommend it for execution in 1865-66, out of the funds, Rupees 35,947, set apart for the Poiney project.

No 557. ORDER THEREON, 27th March 1865, No. 841.

The Government approve of the estimate of Rupees 800, for constructing a flood calingulah in the west bank of the Poiney anicut southern channel, but the Superintending Engineer will observe from Proceedings No 533, dated 24th February 1865, that the funds from which it is proposed to meet the cost of this work in the ensuing official year will not be available

Madras 13th March 1865.

From

Colonel A. J. M. Poole R. E.
Superintending Engineer 4th Division

To
Colonel C. A. Orr R. E.
Secretary to Government P. W. D.

Sir

I have the honor to forward for
the sanction of Government a ^{of Rs 800} Plan, Estimate
and Specification for constructing a flood
Calingulak in the west bank of the Pomey
Ancient Southern Channel near the Yagmbar
Tank in the Wallajah Range North Arcot
District.

2 During the rains of November
last, the water that flowed into this Channel
from the hills to the North of Lalpet was so
excessive, notwithstanding the closing of the
Head Sluice at the Annicut, as to endanger
the safety of the Tanks to the South of
Lalpet, and in the neighbourhood of Pamey.
Fortunately

2 Fortunately the surplus waters found an outlet through a breach in the west bank of the Cooney Ancient Southern Channel at Mangavil. It is to obviate the injuries that may arise to the South Channel, and the Tanks alluded to, and to utilize the surplus water for supplying the large Tanks of Yagamon and Yekarambura melloor, that the Culingulak is now proposed.

3 The Collector has countersigned the estimate in token of approval, but it is too late for execution this year, and they to recommend it for execution in 1865/66 out of the Funds Rupees 35947. set apart for the Poring Project.
