*Proceedings of the Madras Government, Educational Department,
21st March 1866.*

No. 36. Read the following letter from the Director of Public Instruction, to the Chief Secretary to Government, Fort Saint George; dated Madras, 13th March 1866, No. 503.

I have the honor to submit a letter* from the Principal of the Medical College, giving cover to an estimate for fitting up the new Lecture room and Laboratory

set apart for the Chemical Department of the College.

2. The estimate, it will be observed, amounts to Rupees 2509, and as Dr. Smith represents that it is of great importance that as little delay as possible should take place in commencing and completing the work, I beg to recommend that it may receive the early sanction of Government.

From the Principal, Medical College, to the Director of Public Instruction, Madras; dated Madras, 7th March 1866, No. 174.

I have the honor to submit, for your approval, and for transmission to Government, an estimate of the probable expense of fitting up the new Lecture room and Laboratory set apart for the Chemical Department of the College. The total of the estimate amounts to Rupees 2509, being nine Rupees in excess of the sum budgeted and provided for.

2. As the plans and estimate (No. 83 of 1865-66) have been prepared by Captain Beckley, Executive Engineer of the Presidency, agreeably to a Memorandum furnished to that Officer by the Superintending Engineer of the 4th Division, dated 6th February 1863, I have to suggest that the Executive Officer be entrusted with the execution of the work estimated for. It is of great importance that as little delay as possible should take place in commencing and completing the fittings of the Chemical Laboratory and Class room.

3. I append a letter from the Executive Engineer, Presidency Division, in which he obligingly undertakes to execute his own estimate.

No. 37. ORDER THEREON, 21st March 1866, No. 79.

The Governor in Council sanctions the work provided for in the estimate submitted with the foregoing letter, at a cost of Rupees (2509) two thousand five hundred and nine, and directs that it be undertaken by the Executive Engineer at the Presidency.

(True Extract).

H. J. C. Smith
Chief Secretary.
