*Proceedings of the Madras Government, Public Works Department,
6th April 1866.*

No. 45. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 29th March 1866, No. 4,741 :—

1. It is ruled in paragraph 72, Chapter V. of the Public Works Code, that the discretionary allowance shall provide, not for the repair and maintenance of made roads, *but for minor improvements of all kinds on any roads.* Under that permission I sanctioned, in communication with the Collector, Rupees 146 in May 1865 for a tunnel, and other work in connection with it, on the road between Elphinstone Bridge and the Lattice Bridge, from the grant of Rupees 450 for unforeseen repairs (which has taken the place of the old discretionary allowance) in Madras District.

2. The Controller, however, objects to the charge, and considers that the work should properly be treated as a Minor New Work. If that be the case, I request the sanction of Government to the transfer of Rupees 146 from the head "Unforeseen Repairs, Communications" to that of "Minor New Works" in the Mount Range, Madras District. It will also be necessary, I believe, to cancel the first portion of paragraph 72, Chapter V. of the Code.

No. 46. ORDER THEREON, 6th April 1866, No. 1,050.

ACCOUNT, No. 8.

As this Government are unable to sanction transfers from New Works to Repairs and *vice versa*, and as the amount which is required for the tunnel referred to in this letter is very small, the Superintending Engineer of the 4th Division will be requested to propose a transfer of funds from any of the Reserve sanctions for the Districts under his charge.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 4th Division.
