Dated 9-4-	18 66.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department.
9th April 1866.

No. 97. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Murdur Anicut, 23rd March 1866, No. 2,495:—

1. I have the honor to forward Statements of Savings in accordance with G. O. No. 5 of the 3rd December 1864 these were called for in G. O. No. 755 of the 6th instant, on my letter of the 2nd instant, No. 2,361, which explained briefly my proposed transfer of funds. A statement of transfers of allotments forwarded with my letter of the 3rd instant, No. 2,368, was returned to me, by a Memorandum of the 7th, referring again to the prescribed forms.

2. The only saving in this Division, is the sum of Rupees 519 not required for Military repairs; in other respects, the general allotment for the Division need not be disturbed.

3. Statements, No. 4, for each District show several further grants required on Communication Repairs, the reason of this is, that by the time G. O. No. 83 of 9th January 1866 was circulated to the Ranges, the expenditure on the repairs of roads provided with maintenance grants had in some cases gone so far that, when a deduction was made to meet the charge for Petty Establishments, there was found to be already an excess on the reduced allotments. On this being represented to me, the only alternative appeared to direct that the charges made for Petty Establishments, added to the reduced allotments, should not exceed the original allotments. In the same manner, estimates having been sanctioned from the grants for unmetalled roads had been worked upon to that extent, that there was not left a balance sufficient to allow of a deduction for the Petty Establishment charge.

The following abstract shows at a glance the general interchange of funds as required between the main heads in the two Districts:—

STATEMENT No. III.

8. The Superintending Engineer applies for a grant of funds to make good the reduction which is sanctioned in these orders in the allotment for the road from Teroomungalam to the Coimbatore boundary. The Government regret that they are unable to comply with this application.

*Proceedings of the Madras Government, Public Works Department,
9th April 1866.*

STATEMENT No. IV.

9. The circumstances which necessitate the grant of additional funds on account of *Repairs to Communications* in this Division are clearly set forth in the letter recorded at the head of these Proceedings, but the Government expect that care will be taken, in future years, to prevent any outlay being incurred in excess of the maintenance grant provided for each line of road.

10. TINNEVELLY.—The sum of Rupees 233 which is required for repairs under "Civil Buildings" has been allotted in separate Proceedings.
See G. O. No. 1,025, dated 28th March 1866.

11. The Governor in Council directs that the amount (Rupees 519) which is surrendered from the allotment for repairs under "Military" in Tinnevelly be transferred to the Coimbatore District, for appropriation to the special repairs at Wellington, for which funds were promised in the Order of the 28th March 1866, No. 1,022.

I have the honor to forward Statements of Savings, in accordance with G. O. No. 5 of the 3^d December 1864: these were called for in G. O. No. 755 of the 6th Instant, & my Letter of the 2^d Instant No. 2364, which explained briefly my proposed transfer of funds. — A statement of transfers of allotments forwarded with my letter of the 3^d Instant No. 2368 was returned to me, by a Memo of the 7th referring again to the prescribed forms. —

The only saving in this Division is the sum of Rupees 519, not required for Military repairs: in other respects, the General allotment for the Division need not be disturbed.

Statements No. 10 for each District show several further grants required on Communications repairs the reason of this is, that by the time G. O. No. 83 of 9 January 1866.

1866 was allocated to the Ranges, the expenditure on the repairs of roads provided with maintenance grants had in some cases gone so far, that when a deduction was made to meet the charge for petty establishments, there was found to be already an excess on the reduced allotments. On this being represented to me, the only alternative appeared to direct that the charges made for petty establishments, added to the reduced allotments, should not exceed the original allotments.
