Proceedings of the Madras Government, Public Works Department.
14th April 1866.

Read the following papers:—

No. 244. From the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Camp, Kumply, 16th March 1866, No. 233.

1. I have the honor to request the permission of Government to my writing off to "profit and loss" the tools noted in the margin,* which the Sub-Engineer in charge of the Pullumpett Range reports as deficient: some of them may yet be recovered, and for the others receipts are held, but the men from whom the receipts were obtained have left the

District; endeavours have been made to recover the tools, but up to this time without success.

2. In October 1864 Serjeant Connors was remanded to Her Majesty's 102nd Regiment, in consequence of his intemperate habits; previous to this date he had been suspended and his cash chest and books had been taken over; during the absence of Mr. Ellis, who had been sent to take charge, in another part of the Taluq, the Order of Government for Serjeant Connors' removal was received, and Mr. Blacker states that he left the District without reporting his departure, or properly handing over the records and obtaining a receipt.

3. Mr. Sub-Engineer Blacker was wrong in not immediately bringing this circumstance to the knowledge of my predecessor; he appears, however, to have trusted to the receipts that had been given, and has endeavoured to recover the tools; and under these circumstances I beg the sanction of Government to my striking them off to profit and loss. If any should be recovered hereafter they could be brought on to the returns, or if found unserviceable might be sold.

The Superintending Engineer of the 3rd Division is requested to report the value of the tools referred to in this letter.

G.O. 3229/9 dated
15th October 1864

I have the honor to request the presence of Government to my writing out to Proper and the book notes in the margin, such the Superintendent in charge of the Palimphelt Range, to take as directed some of them may not be recoverable and for the other results are not but the list from whom the receipts were obtained have told the Engineer. endeavours have been made to recover the book but up to this time without success

In October 18th Serjeant Connors was demanded to H. H. 102nd Regiment Engineer and he has intended to leave previous to this date he has been suspended and his Cash Chest and Pass has been taken over. During the absence of Mr. Ellis, who has been sent to take charge of the work of the 102nd Regiment, the work of Government for Serjeant Connors removal was received and Mr. Blacker stated that he will be the best account of the receipts of the work or property handed over the Engineer obtaining a receipt

Mr. Sub-Engineer Blacker was wrong in not immediately bringing this circumstance to the notice of the Government. He appears however to have trusted to the receipts that have been given and has not taken the precaution of Government to my writing him off to Proper and 102nd Regiment. He has been told that he has been brought on the 2nd of April and if found unserviceable might be told
