Proceedings of the Madras Government, Public Works Department,

26th May 1866.

No. 605. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 9th May 1866, No. 44:—

1. I have the honor to enclose an abstract estimate of Rupees 540, and the plan of an under-tunnel under the Konakadungal for the supply of the Ponnamungalum lands.

2. The object of the work is to secure a permanent supply of water to lands which yield a revenue of Rupees 361. These lands have for some years been deprived of their legitimate supply by wealthy Merassidars, who possess the neighbouring lands of Randri, and who have cut off the supply from their poorer neighbours. An increase of cultivation yielding a revenue of Rupees 115 is also promised.

3. To complete the project an under-tunnel under the Beiri and Neicopay channels, which are only divided by a common bank, is required, and the excavation of a small channel from the Konakadungal to the Beiri channel; these works will cost Rupees 850 and Rupees 35 respectively, and the Merassidars of Ponnamungalum will carry them out in Kudi Maramut on plans, &c., furnished by this Department.

4. I beg that an allotment may be made from the Reserve for this work at an early date, to admit of its being undertaken this season.

No. 606. ORDER THEREON, 26th May 1866, No. 1,664.

CIVIL WORKS, No. 84.

Under the circumstances which are explained by the Superintending Engineer of the 6th Division, the Right

Honorable the Governor in Council sanctions the estimate, amounting to Rupees 540, for the construction of a syphon sluice under the Konakadungal channel. The

* Rupees 7,500.

outlay on the work will be charged against the current year's allotment*

for Minor New Works under "Agricultural" in the Tanjore District.
