No. 491. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Cuddalore, 17th May 1866, No. 24 :—

1 Estimate.
1 Plan.
1 Specification.

1. I have the honor to forward, for the sanction of Government, an estimate amounting to Rupees 470, accompanied by Plan and Specification for

constructing an additional tiled verandah to the Talook Cutcherry at Kistnaghiri, in the Salem District.

2. The present building being too small, the Tahsildar applied for the proposed addition to it, and the accompanying Estimate and Plan for the same have been approved of by the Collector.

3. The allotment of Rupees 400, for Minor New Works under "Civil Buildings," for this District, cannot bear the cost of this work, I therefore request its sanction from the current year's "Reserve" under that head.

Referred to the Revenue Department.

It seems to me that the proposed construction is not consistent with the object - stated to be desired. If the Culcherry is "too small" an open verandah covered with palmia leaves will be no remedy - and the verandah too is intended to be placed in front of a veranda and along wall and there is only a half door. I would call for explanation W.M.
