*Proceedings of the Madras Government, Public Works Department,
20th June 1866.*

No. 454. Read the following letter from the Consulting Engineer Irrigation and Canal Company, to the Secretary to Government, Department Public Works, dated Madras, 15th June 1866, No. 18:—

1. In acknowledging the receipt of the Order of Government, No. 1,804 of the 14th instant, I have the honor to inform you that I have requested the Agent of the Madras Irrigation and Canal Company to send me the names of any gentlemen who have left, or may be about leaving, the service of the Company, and who may be willing to enter the Department of Public Works under the Government of India. I would beg, however, to point out that in most cases the Engineers are

* Usually one month.

obliged to leave India for England within a very brief period* after the termination of their engagements, if they desire to have their passage paid by the Company, and as these gentlemen could not afford to lose their passage money, unless sure of an appointment in India, I would suggest that the Government of India be requested to report by telegraph the number and description of appointments available; and it would appear to be necessary also that the Government of Madras should be empowered to nominate to the vacancies should applications, supported by evidence of professional experience, be received.

2 The reports of changes of establishment do not reach me until some time after the periods to which they refer, and I do not at the present moment know of any Engineer, lately with the Company, not employed and still in India. A few months ago there would have been many applications.

No. 455.

ORDER THEREON, 20th June 1866, No. 1,938.

ESTABLISHMENT, No. 38.

The Consulting Engineer's letter above recorded will be forwarded for the orders of the Government of India.
