*Proceedings of the Madras Government, Public Works Department,
28th August 1866.*

No. 597. Read the following Proceedings of the Madras Government in the Revenue Department, dated 21st August 1866, No. 2,155:—

Read the following Proceedings of the Board of Revenue:—

Submitting, with remarks, reports of the Collectors on the operations of the Local Funds } (Here enter 12th May 1866, No. 3,321.)
during 1864-65.

Local Funds, No. 13.

Account.

District Road Fund.

1. In these Proceedings the Board of Revenue report on the management of the Local Funds in 1864-65.

2. The income of the District Road Fund amounted to Rupees 5,11,048, and exceeded that of the previous year by Rupees 1,11,038, or twenty-one per cent. Of this increase Rupees 40,000 resulted from the transfer of Fish Rents to Local Funds, and from license fees for boats, which were credited to Local Funds for the first and last time in 1864-65, and have since formed a part of the Imperial Revenue. The remainder of the increase results in part from an alteration in the time of collecting

Bellary, } partially.
Coimbatore, }

ferry rents and tolls in Malabar, from the extension of the Road Cess to three* new Districts, from the assessment of ten per cent. on the sale proceeds of

escheats in Malabar, and from the acquisition of the palmyra rents in Salem. The other items of increase and decrease require no remark.

Toll do.	2,296
Planting avenues	3,229
Public Works Establishment ...	54,922
Sundry items	25,720
	95,911

3. The total sum available for expenditure during the year was Rs. 7,95,676, and the charges† upon it amounted to Rupees 95,911, so that the balance left for making and repairing roads and communications was Rupees 6,99,765. Of this sum only Rupees 3,46,276, or forty-nine† per cent., was expended.

† Per-centage in 1861-62	57
Do. 1862-63	52
Do. 1863-64	58½
Do. 1864-65	49

4. It is difficult to account for the smallness of this expenditure. The Government are willing to make every

allowance for the fact brought to their notice so often by the Board that many important items of receipt can only be credited to the Fund at the close of the official year, and they are of opinion that the sudden increase of the Fund partly excuses the Collectors for not employing so large a proportion of the money at their disposal as they had been able to do in former years; but nothing can make such a statement, as that fifty-one per cent. remains unspent, satisfactory, and the Government must again call upon the Board to exercise a timely and efficient supervision over the proceedings of the District Officers, and see from month to month that a fair use is made of the money which they seem inclined to allow to lie idle in their Treasuries. A report should be submitted at an early date shewing the manner in which the Board propose to carry out these instructions.

*Proceedings of the Madras Government, Public Works Department,
28th August 1866.*

5. The expenditure in the Districts noted in the margin was so small that

	Expenditure.	Per cent.

after duly considering all the explanations which have been offered, the Government cannot but come to the conclusion that the Officers in charge of them neglected this part of their work, and were not sufficiently alive to the importance of it. Their serious attention is called to the remarks of the Board in

paragraph 26 of their Report, with which the Government entirely agree.

6. Under the circumstances stated in paragraph 25, sanction is granted for removing the road from Godimadgoo to Manteral Kanama from the list of Imperial lines, on which Local Funds should not be expended.

7. The Government concur in the opinion expressed by the Board in paragraph 27. The Local Fund Rules do not authorize the Collector or Superintending Engineer to entertain any office establishment, and the Officers of South Arcot must learn to do without a larger staff than is found necessary in the other Districts.

8. The gross receipts of the Pound Fund amounted to Rupees 1,52,212, or Rupees 15,093 more than in 1863-64. The amount of the Fund, inclusive of the balance in hand at the end of the previous year, was Rupees 2,52,000. Of this sum Rupees 46,910 was expended in connection with Pounds, Rupees 90,884 was transferred to the District Road Fund, and Rupees 1,14,206 remained at the end of the year. The Government do not understand why a much larger amount was not made use of. It is manifestly unnecessary to keep so large a balance in hand.

9. The Jungle Conservancy Fund is one which can and ought to be turned to very useful account in every District in the Presidency, but the Report before the Government shews that the Collectors generally do not avail themselves of the money at their disposal. The income of the Fund for the year was Rupees 81,697, and the balance at the beginning of it Rupees 60,727; but only Rupees 46,895, or thirty-three per cent. of the sum available was expended.

10. The figures given in the margin shew what was done in each District.

Large sums were expended in North

Arcot, Madura, and Cuddapah, and the

Collector of North Arcot more parti-

cularly seems to have been energetic

and successful. In Bellary, where it

would be impossible to give too much

attention to laying out topes and plant-

ing trees, very little was done, though

the sum of Rupees 11,893 was available,

and the Collector's report passes over the

subject in silence. In South Arcot no money was spent, and the receipts, amounting to Rupees 3,907, were added to the balance of Rupees 6,395, which had been lying idle previously. The Government expected a better result after the promises made by the Collector in his Report for 1863-64. With regard to Mr. Reade's remarks as to the necessity of some special agency, the Government observe that

*Proceedings of the Madras Government, Public Works Department,
28th August 1866.*

there is no objection to the employment of servants of the description of peons and gardeners &c., on small salaries, and that they are unwilling to believe that Mr. Reade in the face of what has been done in other Districts really wishes for such a special agency as would take the place of himself and his subordinates in utilizing the Fund. With regard to this statement as to the difficulty of selecting sites, the Government remark that though the selection of suitable sites for topes is a matter for careful consideration, it would nevertheless be better to put down trees in any place where the Collector and his subordinates may notice that they are wanted, than to report year after year that nothing has been done.

11. The attention of the Board and the Collectors is AGAIN called to the importance which the Government attach to a useful administration of the Jungle Conservancy Fund.

12. Travellers' Bungalows have hitherto formed the subject of a separate report; but the Government of India have directed that the receipts and charges connected with them should be entered in the Accounts of the Local Funds, and the Board have accordingly devoted a portion of the general report to the Public Bungalow Fund.

13. The fees collected in the Bungalows amounted to Rupees 10,929, and the grant-in-aid of Government to Rupees 18,770. The expenditure was Rupees 19,719, and the balance remaining Rupees 9,980. The remark in paragraph 36 that the Public Bungalows cannot be kept in repair unless Imperial Funds are applied to the purpose, cannot be noticed here, but will receive due consideration if the Board find it necessary to make a separate representation on the subject to Government. The Board will state whether the balance of nearly 10,000 Rupees cannot be made available for this purpose.

14. The report on the Endowment Fund of Chuttrums and Lungherkhanas in the several Districts could not be made complete by the Board, and the details which are given with regard to some of them do not require notice. The Government have, however, observed with some surprise the large proportion of the

Sholingherri.
North Arcot.
South Arcot.
Bellary.
Gooty.

charges for establishment to the cost of feeding in the instances noted in the margin. In Gooty the cost of the establishment exceeds that of feeding.

15. No remarks seem to be called for on the two remaining Local Funds, viz., the Irrigation Cess in the Trichinopoly District, and the Madura Town Fund.

16. The Board will press on Collectors the necessity of their taking early measures, in communication with the Superintending Engineers, to select the works to be undertaken in the ensuing year, so that the requisite plans and estimates may be prepared in time. A Collector who takes a real interest in his District, and is properly conversant with its requirements, ought to have no difficulty in planning the operations of future years as regards new works, and it is only by the exercise of foresight and systematic arrangements that the most advantageous outlay of these Funds can be ensured. The Government hope that the instances in which Supplemental Budget Estimates are sent in hurriedly, months after the year has commenced, will be rarer than they hitherto have been.

Proceedings of the Madras Government, Public Works Department
23th August 1866.

17. The Government also trust that the Board will be able to submit future reports more expeditiously. A report received like the present one, thirteen months after date, is of little practical utility.

1. The Board resolve to submit, for the information of Government, their usual Report on the operation of the Local Funds in the several Districts of the Madras Presidency for the year 1864-65, with a file of the Collectors' Reports above recorded. These Funds, which are under the immediate control of the Collectors and the

District Road Fund.
Jungle Conservancy Fund.
Pound Fund.
Public Bungalow Fund.
Endowment Fund.
Irrigation Cess in Trichinopoly.
Town Fund in Madura.

general supervision of the Board, are noted in the margin. The Public Bungalow and Endowment Funds having been added during this year to the general head Local Funds, the submission of separate reports on the condition of Travel-

lers' Bungalows and Lungerkhanas has been rendered unnecessary. The Board will notice the transaction of each Fund separately in the order given above.

District Road Fund.

2. Two Statements, one showing the particulars of Receipts, and the other those of

Charges on account of the District Road Fund are, as usual, submitted. The total receipts of the year under review amounted to Rupees 5,44,175, which with the previous year's balance, viz., Rupees 2,51,501, raised the total amount available to Rupees 7,95,676. Of this sum, Rupees 4,45,610 were spent, leaving at the end of the year a balance of Rupees 3,50,066. The balance brought forward in the Statement No. 1 will be found to differ from that shown in the similar Statement which accompanied the Report for 1863-64. The difference is in North Arcot, where the principle of bringing into the accounts of Local Funds the collections of Road Cess having been found to be erroneous, the Collector was desired to submit a revised Statement. The balance at the beginning of 1864-65 was correctly brought forward in this Statement.

9. The receipts on account of License fees levied on boats were credited to the District Road Fund in 1864-65, under instructions from the Accountant General, with reference to the Proceedings of the Supreme Government, Financial Department, dated 28th January 1864. It was, however, recently decided that these receipts should for the future be credited to the Imperial Revenue, as the canals in the Districts have been constructed and are maintained from Imperial Funds. In Malabar ten per cent. on the Escheat sales for January, February, and March 1865 was brought to account under the Orders of Government, dated 11th February 1865, No. 2,951, and in Salem the rent of Palmira trees was transferred to this Fund under the special orders of the Board, dated 4th May 1864, No. 2,697, the trees having been planted by local means in past years by the Collectors.

10. Contributions from private individuals for particular works were received during the year under review in eight Districts. The particulars are given below. The Collectors of Cuddapah, Madras, and Tanjore have not specified the particular works for which the contributions were received:—

	Rupees.
Godavery... .. For forming a Boat Harbour... ..	255
Cuddapah... .. Contributions in aid of Public Works... ..	1,033
Bellary... .. For extirpating Prickly-pear... ..	97
Madras... .. Local contributions... ..	1,110
Tanjore... .. Do.	635
Madura... .. For Kodaikanal Lake	2,000
Salem... .. For Varahavathy Bridge... ..	74
Malabar... .. For gravelling Terumangalam Town street.	108
... .. For repairing Wells in Trichengode and Shankagirydroog.	1,410
... .. For repairing Roads... ..	187
... .. For New Town Sanitary Association	858
... .. For repairing certain Roads and Bridges	97
	<u>7,804</u>

11. In Tinnevely a sum of Rupees 4,202-7-2 was realized by sale of the stones of the demolished Fort wall at Palamcottah, and the expenditure on this account amounted to Rupees 3,846-8-0. In paragraph 14 of the report recorded above, Mr. Banbury complains that the slabs, which the Public Works Departments were permitted to take, have not been paid for at a fair valuation. In their Order dated 11th December 1860, No. 2,363, the Government decided that all the materials of the Fort should be sold by public auction, in view to the formation of a fund for local improvements, and that the Department of Public Works should be left to purchase such as it needed, or be allowed to have the stones at a fair valuation, the price being in either case paid and credited to the Fund. This course should in future be strictly followed. In Bellary, Kurnool, Coimbatore, and Salem, certain small sums have been realized by sale of the materials of old buildings and credited to the District Road Fund.

12. Among the rest of the Sundry items only two require notice. The first is the transfer of Rupees 2,312 from the one per cent. Income Tax Fund in North Arcot. Of this, a sum of Rupees 485-0-4 was the amount expended on the road from Arcot to Arni, and recovered under the Orders of Government, dated 18th March 1864, No. 830, as the road is an imperial line. The remainder, Rupees 1,827, was transferred during the year on account of Rupees 2,906, which was entered in the accounts of 1863-64 among the items of expenditure, as the amount to be made good by the Department of Public Works. There still remains thus a balance of Rupees 1,079 to be brought to account, and the Collector states that he is waiting for further instructions from the Accountant General regarding the final adjustment of the item. The other item is the sale proceeds of

old Cannon in the same District, amounting to Rupees 147. This was credited to the District Road Fund by the Collector, before the receipt of the Order of Government, dated 17th August 1864, No. 1,237, in which it was directed that the receipts and charges for bursting guns should be treated as imperial. In the present instance, the charges for bursting cannons exceeded the receipts by Rupees 75-1-7. The Collector requested that this sum, which was paid from the District Road Fund, might be re-imbursed to it, and the Board accordingly sanctioned the refund in their Proceedings, dated 17th February 1866, No. 1,116, as it is properly debitable to the Magisterial Department under the Order of Government above referred to.

13. Next, as regards the items of decrease. In the item of grass rent there is a large falling off, which occurs in the Godavery and Madras Districts. In the latter District the grass rents of the Esplanade in the Town, which were hitherto credited to the District Road Fund, have, for the year 1864-65, been transferred to the Municipal Commission. There is also a large decrease in the item of avenue clippings, in consequence of certain sums realized from this source having been credited to the Jungle Conservancy Fund, agreeably to the Board's Circular, dated 3rd August 1864. The Government however, when reviewing the Local Fund Report for 1863-64, directed that the proceeds of avenue clippings should continue to be credited to that Fund, and that the charges connected with the planting and watering avenues should be defrayed from it. The Collectors have been directed to adopt this course. The following is the abstract of Statement No. 1, showing the receipts from the several sources compared with 1863-64:—

Items.	1863-64.	1864-65.	Increase.	Decrease.
	RS.	RS.	RS.	RS.
1. { Ferry rents	92,328	1,07,651	15,323	...
1. { Tolls on Roads and Bridges	15,004	26,837	11,833	...
2. Road Cess	1,19,122	1,39,926	20,804	...

21. The charges particularized in the abstract annexed to paragraph 14 being deducted from the total receipts including the balance at the end of the previous year, a sum of Rupees 6,99,765 was left available for expenditure on roads and communications, but the actual expenditure incurred on this account was only Rupees 3,46,276, being forty-nine per cent. of the available amount. It is, however, to be remembered that funds have to be reserved from each year's receipts for current expenditure in the earlier part of the succeeding year, as many important items of receipts can only be credited towards the close of the year. The particulars of this expenditure are detailed in the Statement No. 2. The following abstract, in which the Districts are arranged with reference to the amount of expenditure, shows the available funds, the amount expended, and the particulars of the balance remaining at the end of the year:—

22. In Malabar and South Arcot the expenditure on the former District the proportion of expenditure were spent. In this District Rupees 40,165

22. In Malabar and South Arcot the expenditure on works was the largest, though in the former District the proportion of expenditure on the available amount was only fifty-seven per cent. In this District Rupees 40,165 on roads, Rupees 25,561 on bridges, and Rupees 4,207 on canals were spent. Two new bandy roads were constructed, one from Manjire to Edvana, and the other from Manjire to Mongoth. The Collector states that these roads will, on their completion, afford great facilities to traffic. The first mentioned road will hereafter be classed as an imperial road, as determined by Government in their Order, dated 9th January 1865, No. 36. In repairing roads Rupees 33,011 were expended, and of this sum Rupees 14,362 were spent on the roads from Palghaut to Wadukancheri, via Alatur. Under the head of Bridges, the largest expenditure was on the works noted in the margin. The only canal work executed in the District during the year was the Pyolli lock, at a charge of Rupees 4,207.

Re-building Kakodi Raduva Bridge...	3,454
Do. Annokoyem Bridge...	2,787
Repairing Paraparamba do...	1,295
Bridges in Wynad...	1,603

23. In South Arcot the expenditure is composed of Rupees 16,096, spent in opening up new lines of roads and constructing bridges, and Rupees 48,194 in repairs to existing ones. The Collector observes that he was anxious to carry on towards completion the already extended lines of communication between village and village throughout the District, but that he was prevented

from doing so by the heavy floods in the beginning of October 1864, which caused such serious damage to all existing roads and other works, that the funds available were exhausted in repairing and replacing what had been partly or in whole destroyed; thus the largest portion of the expenditure was on repairs.

24. The next largest expenditure was in the Districts noted in the margin. The Collector of North Arcot states in his report that the new works and repairs have been executed satisfactorily, and that he was gratified to find them in good order, notwithstanding the heavy rains in the year. In Tanjore it is said that much has been done during the year in the way of improving local communications, and in carrying out other works of general utility, though the amount actually expended bears but a small proportion to the funds which were available. In explanation of this the Collector remarks that the accounts submitted with his report represent the actual payment in the year, and not the value of the work actually executed, and that the official year closes at a time when works are being vigorously pushed on, and when a large amount of work must necessarily remain to be measured and paid for. He joined the District only a fortnight before the close of the year, and promised that the whole of the balance in hand should be usefully employed during the present year. In the Godavery and Madura Districts the expenditure was out of proportion to the sums available. Mr. Fraser explains that owing to the late receipt of the sanction of the Government to his revised Budget submitted in August 1864, he

Government Order, dated 31st January 1865.

was not able to spend a larger amount. The most important work that was commenced in the Godavery District is an iron-girder Bridge across the Yalur river near Coconada; to carry also an aqueduct for fresh water from the Samulcottah canal to the Town of Coconada; the construction of two self-acting sluice tunnels under the Coconada harbour road; the removal of masses of stone on the road from Yerrarum to Jaddungi; and the repair of the road from Samulcottah to Rajanagarum. The chief item of expenditure in Nellore was Rupees 8,254 on the Kanigiri, Kundukur, and Nullapallum road to the beach. In Madura also the expenditure was much below the available sum; but in Coimbatore and South Canara it was satisfactory.

25. In the nine Districts noted in the margin the expenditure was not only small, but also altogether disproportionate to the funds available except in Ganjam. In the Kistna District, it is ascribed to the general derangement of the works of the Districts by the cyclone of 1st November 1864, and the Board presume that the disproportion of the charges to the income in many Districts was owing to the unexpected addition to the funds by the reduction in the amounts originally provided for the Public Works Establishment. The Collector of Kurnool observes that the road from Godidimudgova via Kurnool by Nundikothoor to Manteval Kanama was, by some mistake, included in the Statement prepared by Government, under date the 5th January 1865, No. 13, showing the Imperial lines of road on which Local funds are not to be expended, though it was reported to them that this was purely a local road to the Taluk, but not in any way an imperial line, as the road across the Manteval Kanama is not suitable for cart traffic, and the Board request permission to remove this road from the Statement above alluded to.

26. Mr. Banbury, the then Acting Collector of Tinnevely, remarked that many of the present Tahsildars carried out works of considerable magnitude under the old régime; and could, if they liked, do equally well now, but that they seem to think that the Mahramut is now a separate

		29,726

31. The expenditure from the Jungle Conservancy Fund during the year was much in excess of that preceding it. It will be observed that in all the Districts except South Arcot, there was some work done in the way of planting, although it was not proportionate to the funds available. In North Arcot the expenditure on this account was the largest, being Rupees 17,911, or Rupees 8,394 more than in the previous year. It is reported that some 55,000 trees have been planted along nearly 400 miles of road in this District. The Board are glad to observe that Mr. Robinson continues to take a lively interest in the development of a department which he did much to originate, and that although, as he mentions, the difficulties he has to contend with in a District so arid as North Arcot is, are great, still the results already obtained are promising enough to encourage steady and persistent action.

32. The expenditure in Madura and Cuddapah was respectively Rupees 6,647 and Rupees 6,092. In the other Districts it varied from Rupees 2,946 in Bellary, to Rupees 11 in Vizagapatam, where the income itself is very small. The Collectors have been urged to adopt proper measures to employ the considerable fund available, which in justice to the people must not be allowed to remain idle.

33. In South Arcot Rupees 1,274 were paid to the Public Works Department, and Rupees 74 to the Taluk Revenue authorities, for the formation of plantations, nurseries, &c., and these partial improvements were in progress, though nothing appears to have been spent. Mr. Reade ascribes the non-expenditure in the District during the year to the lateness in the receipt of the supply of seeds from the Board, and to the very great difficulty and delay there has been in selecting suitable sites, and above all to the want of leisure on the part of every Officer of the District; and he expresses his opinion that some special agency must be employed in order to obtain satisfactory results.

34. The Board are prepared to consider any reasonable proposals for the useful employment of the available funds, but the results obtained by Mr. Whiteside in South Arcot, which have been already brought to the notice of Government in Board's Proceedings, dated 13th. March 1866, No. 1,726, suffice to prove that in this as in all other attempts at effecting improvements, "When there's a will, there's a way."

35. In Ganjam, besides Rupees 898 spent on the formation of large nurseries and topes, &c., near the salt pans, a sum of Rupees 1,000 was transferred to the District Road Fund, as the sources of its revenue in that District are very small. The Board are glad to observe that the Collectors of Ganjam, Nellore, Cuddapah, Kurnool, North Arcot, Madura, and Trichinopoly (Mr. Banbury,) appear to be fully alive to the importance of this work. The exertions of Kistna Row, the Tahsildar of Koilkootla Taluk in the Kurnool District, in promoting the effort, are deserving of much commendation.

Public Bungalow Fund.

ordered by the Supreme Government to be included under Local Funds. The Board are not in possession of information necessary to enable them to give a full report upon the condition of the several Bungalows in each District, as many of the Collectors failed to submit a Statement in the form prescribed, showing the condition of each Bungalow, though they were distinctly instructed to do so. The report on this Fund for the current year will be as complete as the Board can make it. The following abstract, prepared from the materials available, shows the receipts and charges of the Fund during the year. The fees realized in the year amounted to Rupees 10,929, which sum was raised to Rupees 29,699 by the addition of Rupees 18,770, being the grant-in-aid from Imperial Funds. The expenditure amounted to Rupees 16,876 on account of establishment.

36. For the first time the transactions of this Fund appear in this Report, it having been included under Local Funds. The Board are not in possession of information necessary to enable them to give a full report upon the condition of the several Bungalows in each District, as many of the Collectors failed to submit a Statement in the form prescribed, showing the condition of each Bungalow, though they were distinctly instructed to do so. The report on this Fund for the current year will be as complete as the Board can make it. The following abstract, prepared from the materials available, shows the receipts and charges of the Fund during the year. The fees realized in the year amounted to Rupees 10,929, which sum was raised to Rupees 29,699 by the addition of Rupees 18,770, being the grant-in-aid from Imperial Funds. The expenditure amounted to Rupees 16,876 on account of establishment.

and Rupees 2,813 on account of contingencies, leaving a balance at the end of the year of Rupees 9,980. The amount of fees entered for North Arcot and Coimbatore includes respectively Rupees 217, being the sale proceeds of unserviceable furniture, and Rupees 480 being the rent of certain Bungalows leased as Hotels; a sum of Rupees 280 was paid for the rent of the Bungalow at Chicacole in Ganjam. In Vizagapatam and Coimbatore Rupees 500 and Rupees 777-8-0 were respectively disbursed in purchasing furniture. These charges have been included under the contingencies shown for these Districts in the abstract. In South Arcot Rupees 76 was spent from the District Road Fund, and in North Arcot Rupees 70, and in Tanjore Rupees 78-12-5 from Imperial Funds, for the repair of certain Bungalows in those Districts. The Board believe that in most Districts repairs have been executed to some trifling extent by the Public Works Department from the funds at their disposal for the repairs of Civil Buildings, but the Collectors have given no information on the subject beyond what is stated above. There can be little doubt that the Bungalows must soon fall into utter ruin if not kept in repair from Imperial Funds, as there is no prospect of the fees ever doing more than pay the establishment, and maintain the supply of furniture, for which purposes they do not nearly suffice at present :—

Endowment Fund.

37. The Board in their Report on Lungerkhanas for 1863 64, suggested to Government that an annual report from all Collectors should be called for upon the Choultries as well as Lungerkhanas of their Districts; that their transactions should appear under the head Endowment Fund to be newly opened as a subsidiary heading under Local Fund; and that the administration of this branch of the Fund should be noticed in the Local Fund Report. These suggestions were approved by Government in their Order, dated 14th June 1865, No. 1,308, and the necessary instructions were issued to Collectors to open a new head in the accounts of Local Funds styled Endowment Fund, and to carry to the credit of this head all surplus Chuttrum funds remaining in deposit on the 30th April 1865. The Collectors of the marginal Districts, only have, in their present Reports, noticed the transactions under this head. It is therefore not possible, with the

Madras:
Tanjore.
Trichinopoly.
Tinnevely.
Salem.

39. There are twenty-eight Chuttrums in this District under Government management, seventeen being those of the late Rajah, three founded by private individuals, and eight by Government. There is also a Conjy House kept at Tanjore, which is maintained by grants made from the funds of the Chuttrums, in which there happens to be an available surplus. The financial transactions of these Chuttrums are given below:—

40.	Of the total receipts of Rupees 1,47,512-0-11, Rupees 1,35,332-12-8 is the revenue from landed endowments, and Rupees 12,179-4-3 is the ready-money allowance received from the Government Treasury. Of the total charges, Rupees 91,082-10-3 were spent in distributing food to travellers and to the poor, Rupees 24,955-8-6 for the establishment of the several Chuttrums, and the remainder in repairing the Chuttrum Buildings, &c.	14,956	1	0	466	0	4	3,239	13	9	1,47,461	4	11
								9,885	13	7	25,307	14	11

Trichinopoly.

The surplus...

42. The Collector has not stated the number of Chuttrams in his District, but notices the financial transactions as given below:—

	Private Chuttrums.		Public Chuttrums.		Total.	
	RS.	A. P.	RS.	A. P.	RS.	A. P.
Balance on the 30th April 1864	13,302	11 2	11,046	4 0	24,348	15 2
Receipts during the year	3,205	10 10	863	8 8	4,068	3 6

Balance on the 30th April 1865	3,441	14 10	335	0 0	3,776	14 10
Total	13,066	7 2	11,574	12 8	24,640	3 10

43. In the Collector's Report it is simply stated that the Chuttrums and Choultries for the accommodation of native travellers are duly maintained by endowments in lands under the management of the proprietors of the Chuttrums. The only Choultry maintained by Government grant, and placed under the management of the Collector, is the Topur Choultry. The annual grant for the establishment of this Choultry is Rupees 198.

the endowment of thirty Rupees a month is to be paid from 1899-1901 to 1901-1902 to the Society at Negapatam, while the other is a Public Dispensary, which was hitherto called a Lungerkhana.

46. The number of persons relieved and the cost and rate per head in each Lungerkhana during the year under review, compared with the similar results of 1863-64, are shown in the following abstract:—

Districts.	1863-64.				1864-65.			Comparison between the cost.

47. The Collector of North Arcot failed to give the number of persons relieved in the Vellore and Arcot Lungerkhanas of his District. It will be seen that the number of persons relieved during the year in Coimbatore and Bellary is very much below that for the year 1863-64.

48. The following abstract shows the financial transactions of the several Lungerkhanas :—

Districts.	Balance at the end of last year brought forward.		Amount of sanction and receipts from all sources in the current year.	Total available for expenditure in the current year.	CHARGES.			Balance.

Irrigation Cess in Trichinopoly.

49. The demand of the year under this head amounted to Rupees 8,466. Of this, 603 Rupees only were collected, besides Rupees 4,048 on account of the arrears of Rupees 5,882 outstanding at the beginning of the year, leaving Rupees 9,697 at its end to be collected. Of this sum, Rupees 5,013 have been since collected. The Collector stated that the requisite steps had been taken for the early realization of the balance.

	91
	0 2
Balance on the 30th April 1865...	4,631
	5 9
	18,010
	2 3

50. The amount available for expenditure during the year was Rupees 8,019. A sum of Rupees 6,318 was disbursed in paying the wages of the establishment, construction of Muddams, &c., leaving Rupees 1,700 in favor of the Fund on the 30th April 1865.

51. The transactions of this Fund are given in the margin, from which it will be seen that the receipts amounted to Rupees 10,174, and the total expenditure to Rupees 4,631. The balance shown at the end of the year consisted of an unadjusted item amounting to Rupees 5,000, being the amount advanced for enlarging and altering the Market No. 1, which was in a ruinous state, Rupees 5,500 in Government Paper, and the remainder in the Huzur Treasury.

52. The Board much regret the unusual delay that has occurred in submitting this report. The Accounts received from some of the Districts were incorrect, and references to Collectors became necessary; and it must also be added that with a large addition of work the Account Department has had to contend with many difficulties. An increase to the establishment has lately been applied for. Arrangements will, however, be made to prevent such delay in future.

(A true Extract.)

(Signed) W. HUDLESTON,
Secretary.
