G.O. No. 2711	Press
603-604	Mis.
Dated 28 8	18 66.

Not to be folded or roughly handled

No. 603. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Kodikarnel, 12th August 1866, No. 662 :—

1. The Officer Commanding Quilon represented a year ago the very bad condition of the Military Hospital and latrine belonging to it, of the Staff Serjeant's quarters, and the Powder Magazine, and estimates have been prepared for restoring these buildings. One estimate of Rupees 420 has been sanctioned by local authority, for repairing the Powder Magazine, and I have now the honor to submit for the sanction of Government—

Estimate for repairing and improving the Military Hospital and guard-room attached...	rs. 2,290
Estimate for constructing a new latrine for the Hospital ...	220

Both these estimates have been approved by the Major General Commanding the Southern Division, and also by His Excellency the Commander-in-Chief, in letter from the Quarter Master General of the Army, No. 450, of the 4th instant.

The Hospital is at present very defective in both light and ventilation; the roof is old and worn out, and the slopes of the main roof and verandah are badly arranged, so that the water lodges and leaks through. The estimate provides for raising the main walls 1½ foot, and to renew the roof with couples, reepers, &c., with the addition of a ridge ventilator along the whole length of the building; windows are to be inserted in the front and rear walls of the main ward; the walls are to be plastered, and the wood-work of doors and windows to be painted. The walls of the guard-house are to be re-plastered, and shutters provided for the windows the roof and flooring are also to have slight repairs. This estimate is the second one that has been framed, the original one having been revised, in order to meet the wishes of both the Commanding Officer and the Medical Officer of the Station.

The amount of the estimate, Rupees 2,290, nearly comes up to the valuation of the building, Rupees 3,100, and the work therefore requires the sanction of Government.

2. The present latrine stands on the edge of a stream; the walls have sunk and cracked; the wood-work is in a rotten state; and the roof in very bad condition. The new building required is a small one, estimated at Rupees 220; but this being an entirely new work also requires the sanction of Government.

3. As to the provision of funds, the only Budget allotment, under the head "Military," Rupees 790, for "Minor repairs to buildings," has been already appropriated; Rupees 420 being given to the repair of the Powder Magazine at Quilon, noticed above, and Rupees 370 to the deepening of wells in the Lines at Palamcottah, approved by His Excellency, the Commander-in-Chief. His Excellency has also approved an estimate of Rupees 830 for repairing the Staff Serjeant's quarters at Quilon, which estimate is within my competency to sanction, but I have no money to allot.

No. 662. Superint^r Engineer's Office S.D.
Kodikarnal 12th August 1866

From,
Captain H. P. Prendergast R.E.
Off^r Superintending Engineer S.D.

To,
Colonel C. A. Orr R.E.
Secretary to Government S.D.

Sir,
The Officer Commanding Quilon
represented a year ago, the very bad condition
of the Military Hospital, and Latrine
belonging to it, of the Staff Sergeants Quarters,
and the Powder Magazine. Estimates have
been prepared for restoring these buildings -
One estimate of Rs 1,200 has been sanctioned
by Local authority for repairing the Powder
Magazines; and I have now the honor to
submit for the sanction of Government -

Estimate for repairing and improving
the Military Hospital and guard
rooms attached — Rs 2290

Estimate for constructing a
new Latrine for the Hospital Rs 220
Both these estimates have been approved
of

by the Major General Commanding
the Southern Division, and also by His
Excellency the Commander in Chief; in
letter from the Quarter Master General of
the Army No 450 of the 11th Instant. —
The Hospital is at present very defective in
both light and ventilations; the roof is old
and worn out; and the slopes of the main
roof and verandah are badly arranged,
so that the water lodges and leaks through.
The estimate provides for raising the main
walls 1 1/2 feet; and to renew the roof with couples
peepers 4th, with the addition of a Ridge
ventilator along the whole length of the building.
Windows are to be inserted in the front and
rear walls of the main ward: the walls are
to be plastered; and the wood work of doors
and windows to be painted. The walls of the
guard house are to be replastered; and shutters
provided for the windows. The roof and flooring
are also to have slight repairs. — This estimate
is the second one that has been framed; the
original one having been revised, in order to
meet the wishes of both the Commanding
Officer and the Medical Officer of the Station.
The amount of the estimate Rupees
2290, nearly comes up to the valuation of the
building, Rs 3100: and the work therefore
requires

requires the sanction of Government? —
2. The present Lathine stands on the edge of a
Stream; the walls have sunk and cracked.
the wood work is in a rotten state; and
the roof in very bad condition. — The new
building required is a small one, estimated
at Rupees 220; but this being an entirely
new work, also requires the sanction of
Government? —

3. — As to the provision of funds; the only
Budget allotment, under the head Military,
Rs 790 for "Minor Repairs to Buildings"
has been already appropriated; Rs 420
being given to the repair of the Powder
Magazines at Quilon noticed above,
and Rupees 350 to the deepening of wells
in the Line at Palamcottah, approved by
His Excellency the Commander in Chief.
His Excellency has also approved an
Estimate of Rs 830 for repairing the Staff
Serjeant's Quarters at Quilon, which
estimate is within my Competency to sanction;
but I have no money to allot. —

4. — I have therefore to request that
Government will be pleased to grant funds
to the Chinnvelly District, under the head
Military
