G.O. No. 2712

Press
Mis.

605-606

Dated 28-8

1866.

Not to be folded or roughly handled

**Proceedings of the Madras Government, Public Works Department,
28th August 1866.**

No. 605. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 14th August 1866, No. 1,387 :—

1. With reference to G. O. No. 2,482, dated 7th instant, I have the honor to inform you that my reason for proposing the alteration in the Ranges in the Bellary District is because I consider that the Officer in charge of the Cantonment of Bellary should never be called upon to leave the station in order to inspect works outside, and also because I consider that the Hospett Taluq, in which are the Toongabuddrah channels and the Sanitarium at Ramandroog, should be under a member of the Engineer establishment.

2. As Government do not, however, seem to wish to reduce the number of Ranges, I would beg to propose that the Hospett Taluq and Sanitarium at Ramandroog be added to the Kudlighee Range, to be placed under the charge of a member of the Engineer establishment, and that a first class office be given.

3. My wish is to make the Department more efficient, and I would urge that this is not gained by having extra Supervisors, who would in no way relieve the Range Officer of any of his accounts; what is required, in my opinion, is another Officer, and if he was allowed, three of the Upper Subordinates might be taken away.

4. At present I have ordered Mr. Supervisor Gray to do work under the Officer in charge Military Buildings Range, and I beg to know if, as he is the senior Supervisor in the District, he is to be put in charge of a Range, and the junior Supervisor be sent to do duty in some Range.

5. If employed in assisting a Range Officer, the Supervisor will require an office establishment of one Writer and two Lascars, but if engaged in the investigation of a project he would require five or six Lascars.

No. 606. ORDER THEREON, 28th August 1866, No. 2,712.

ESTABLISHMENT, No. 67.

1. The Government do not see that the transfer of Taluqs recommended in this letter, at an increased cost of establishment, will conduce to the greater efficiency of the Department.

2. Major Moberly will observe from G. O. No. 2,606, dated 20th August 1866, that it is recommended to employ Mr. Gray in the investigation of certain projects, but if Mr. Gray's services be required elsewhere, the Government will not object to other arrangements being made for the prosecution of the investigations in question.

3. The Superintending Engineer will with reference to paragraph 5, submit a statement showing clearly the establishments required for the Supervisors.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 3rd Division.

Exd. S. T. Augustin.

Charge

N^o 1387

Sd/-g. Engr's Office
Bellary 14th Aug/16

From, The Superintending Engineer
2^d Division
To, The Secretary to Government
Public Works Deptt.
Sir

With reference to G. O. N^o 2482
dated 7th Instant, I have the honor to inform
you that my reason for proposing the alteration
in the Ranges in the Bellary District is
because I consider that the Officer in charge
of the Cantonment of Bellary should never
be called upon to leave the station in order to
inspect works outside and also because I consider
that the Hospett Taluk, in which are the
Toongabudoorah Channels and the Sanitarium
at Panandroog, should be under a member
of the Engineer Establishment.

2 As Government do not however seem
to wish to reduce the number of Ranges, I would
beg to propose that the Hospett Taluk and
Sanitarium at Panandroog be added to the
Kudlighee Range, to be placed under the
charge.

Charge of a Member of the Engineer Establish-
ment and that a 1st Class Office be given

3 My wish is to make the Depart-
ment more efficient and I would urge that this
is not gained by having extra Supervisors
who would in no way relieve the Range Officer
of any of his accounts - what is required in my
opinion is another Officer and if he was allowed,
three of the upper Subordinates might be taken
away -

4 At present I have ordered Mr Super-
visor Gray to do work under the Officer in ch.
Military Buildings Range and I beg to know
if, as he is the Senior Supervisor in the Dist.,
he is to be put in charge of a Range and the
Junior Supervisor ~~is to be~~ he sent to
do duty in some Range.

5 If employed in assisting a Range
Officer the Supervisor will require an Office
Establishment of one Writer and two Clerks -
but if engaged in the investigation of a project
he would require five or six Clerks -

Have you

W. H. B. Major
Superintending Engineer
3rd Division

MADRAS GOVERNMENT
Under date the 28th August 1955
Read the following

*The Subj: Engineer of the
3^d Division — (Here enter No. 1307 dated 14 Aug/66)*

The Government do not see that the transfer of Talents recommended in this letter, at an increased cost of establishment, will conduce to the greater efficiency of the Department.

2. Major Moberly will ob-
serve from H. O. No 2606
dated 20th Augt/86 that it
is recommended to employ
Mr Gray in the investiga-
tion of certain projects, but
if Mr Gray's services be
required elsewhere, the
Government will not
object
