Dated 1-9-1866.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
1st September 1866.*

No. 11. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Salem, 24th August 1866, No. 90 :—

1. With reference to Nos. 1,382 and 1,383, dated 8th June 1866, referring for my report petitions addressed to Government by certain Ryots of Agrarum, in the Tripatore Taluq, Salem District, I have the honor to submit, for sanction,

an estimate of Rupees 1,080, with plan and specification, for re-constructing the anicut and clearing the channel of the Agrarum Vadugagaundem tank near Natrampalli, the works applied for in the petitions.

2. The anicut has been ruined for a long time. The tank depending on it has been since ill-supplied, and an additional supply of water is very necessary. The present revenue under the tank is Rupees 751, and by the restoration of the anicut an increase of Rupees 200 is expected. It would not be advisable to make over to the Petitioners, as requested by them, this work which yields such a large revenue.

3. I am unable to point out now any source whence funds for the work can be obtained, and if the Reserve at the disposal of Government under the head "Agricultural" has been already exhausted, I request authority to include the work in the "List of sanctioned works below 2,500 Rupees," to be submitted in April next.

No. 12. ORDER THEREON, 1st September 1866, No. 2,775.

CIVIL WORKS, No. 4.

1. The Government sanction the estimate of Rupees 1,080 for re-constructing the anicut and clearing the channel of the Agrarum Vadugagaundem tank near Natrampalli in the District of Salem. The Superintending Engineer will apply for funds for the work after 1st April next.

2. Intimation of the sanction now accorded will be given to the Petitioners by the Superintending Engineer.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 5th Division, with one Specification:

The Secretary to Government in
The Revenue Department.
Hon or Sir Sir Madras

20/4/00

We the undersigned Ryots beg most
respectfully to enclose copy of a Petition
and its enclosures to the Collector of Salem
for your information, with a view that
you will be pleased to represent to Govt
our distress and misery for want of water
in our Village Tank, which, is in very
good order but not of the slightest utility
to us for many years past owing to the
ancient that feeds this Tank having been
very frequently represented to the local
Revenue Authorities and we will feel
infinitely thankful by your obtaining
redress, as we are unable any longer
to pay Humjay Tax while we are not
supplied with water and the few that
have excavated wells in our fields
fail often in raising our crops.

If the Government decline Building
the Ancient, we are willing to do so
ourselves, be the cost whatever it may,
Yours in
