Proceedings of the Madras Government, Public Works Department, 7th September 1866.

No. 182. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Salem, 23rd August 1866, No. 89 :—

1. With reference to G. O., No. 3,255, of the 30th of October 1865, I have the honor to submit, for the sanction of Government, an estimate of Rs. 19,640, accompanied by plan and specification, for walling the new Cemetery for all denominations of Christians at Bangalore.

1 Plan.
1 Abstract Estimate.
1 Specification.

2. It will be observed that the cost of the work is very much in excess of the sum mentioned in the Executive Engineer's letter, recorded in G. O., No. 2,740, of the 16th September 1865. It was at first supposed that the plot of ground would not exceed in area the present Cemetery, but it is four times as large; hence the increased cost of enclosing it.

3. The plan and estimate have been approved by the Officer Commanding the Division. They have not been forwarded officially to the Commissioner of Mysore, but Captain Tulloch personally waited on him with the plan, and informed him of the cost of the work, which the Commissioner requested might be proceeded with as rapidly as possible.

4. One-half of the cost of the work is to be borne by Government, and the other by the Mysore Government. Rupees 2,376 were expended in the last official year, and the work is now being proceeded with in accordance with the wishes of the Commissioner, and the authority conveyed in the G. O., quoted in paragraph 1. I therefore request Government will be pleased to place the balance of the estimate, Rupees 17,264, at my disposal for expenditure this year.

No. 183. ORDER THEREON, 7th September 1866, No. 2,861.

CIVIL WORKS, No. 31.

1. The Government sanction the estimate of Rupees 19,640, for enclosing the new Cemetery for all denominations of Christians at Bangalore. They however consider that the proposed wall will be more costly than necessary, and they would have preferred one of more simple design and cheaper construction.

2. As a moiety of the cost of the work is chargeable to the Mysore Government, the Commissioner will be addressed with a view to the necessary funds to that extent being placed at the disposal of the Executive Engineer, Bangalore, and as the amount to be provided by this Government is not at present available, authority is granted for the work being proceeded with, leaving the adjustment of the portion of the outlay to be borne by this Government, to be effected hereafter.

Ordered that the following letter be sent :—

(Here enter No. 2,862, dated 7th September 1866.)

Do Duty Asst

Dispd 8 Sept

Judging from the plan drawing of the wall &c. described to build, I think it designed is likely to be more costly in execution than need be. Unless the Govt are committed to the adoption of Captain Sullivan's plan I would advise that the work be executed with a less ornamental and if it can be, a cheaper wall
