*Proceedings of the Madras Government, Revenue Department,
6th September 1866.*

No. 121. Read the following Proceedings of the Board of Revenue, dated 23rd August 1866, No. 5,999.

Read again letter from the Collector of Bellary, dated 20th June 1866, recorded in Board's Proceedings of 9th July 1866, No. 4,662.

Read also the following letter from the Superintending Engineer, 3rd Division, to the Secretary to the Board of Revenue, dated Bellary, 27th July 1866, No. 1,140 :—

1. With reference to the Board's Proceedings, No. 4,662, dated 9th instant, I have the honor to inform you that I yesterday inspected the Collector's Cutcherry in company with the Collector himself, and that we are of opinion that a pandal would not answer for the window on the west side, as it would interfere with the drive up to the steps leading to the upper rooms of the Cutcherry. The room is occupied by the Serishtadar, and has only one window to admit light with batten shutters : when closed the room is quite dark, and when opened is exposed to wind and rain and the afternoon sun. It was the opinion of the Collector and myself that it would be better to move the batten shutters outside, and put other shutters inside of partly glass and partly

* The probable cost would be Rupees 32. venetians.*

2. For the room on the east side we thought there was no necessity to do anything. The windows need only be opened to air the room, which is used for holding stationery, and the time for opening can easily be chosen.

Ordered that the foregoing letters be submitted for the orders of Government, with reference to Government Order, dated 9th June 1866, No. 1,399, and with the Board's recommendation that sanction be granted for putting up the proposed shutters to the room in the Collector's Cutcherry occupied by his Serishtadar at an estimated cost of Rupees 32.
