Proceedings of the Madras Government, Public Works Department, 13th September 1866.

No. 350. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Madura, 4th September 1866, No. 854 :—

1. With reference to Orders as per margin, I have the honor to report, that I have at present no funds available for expenditure, during the current official year, on the road to the Vypar salt pans.

No. 2,578 of 10th August 1866.
„ 2,769 of 31st do. „

2. The allotment for "Minor repairs to roads" has already been appropriated by the Collector and myself. It may be considered a somewhat early period of the official year to allot the discretionary grant, but I was anxious to do so this year, on account of difficulties that arise when a large proportion of the year's funds is left for expenditure in the last two or three months in the year; and considering it better to make sure of utilizing available funds, rather than to await on with a reserve in hand, in case some requisition of importance may be made at a later date.

3. In the event of any extra funds being transferrable to the Division, towards the close of the year, an allotment might with advantage be made for the Vypar salt road.

No. 351. ORDER THEREON, 13th September 1866, No. 2,939.

ACCOUNT, No. 34.

1. Communicated to the Board of Revenue with reference to paragraph 3 of their Proceedings dated 20th August 1866, No. 5,903.

2. Should funds be surrendered later in the year by Superintending Engineers, the Government will be prepared to assign the required grant for the completion of the road leading to the Vypar salt pans, or if the money be forthcoming before the close of the official year from savings on allotments for works in the 8th Division, Captain Prendergast will intimate the circumstance immediately with a view to the amount being appropriated to the road in question.
