630-31

Dated 26-9 1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 26th September 1866.

No. 630. Read the following letter from the Acting Inspector General of Ordnance and Magazines, to the Secretary to Government, Military Department, dated Fort Saint George, 11th September 1866, No. 137:—

1. I have the honor to forward, herewith, plan of house for a boiler recently received from England for the Gun Carriage Manufactory, and estimated to cost Rupees 2,500.

2. The necessity for setting up this boiler at an early date is called for under the circumstances set forth in the annexed extract from a letter from the Superintendent Gun Carriage Manufactory, and on the grounds of practical economy I beg to recommend that the sanction of Government be accorded for the work being proceeded with as early as possible.

"The one boiler in use has now been working more constantly than would admit of its being kept in proper order for eight years, and has arrived at an age which renders some extra care necessary to its safety; it is therefore of importance that the setting of the new boiler, and consequent relief of the old one for examination and repair, should be expedited."

Transferred to the Department Public Works, in view to the work being executed as early as practicable.

(Signed) R. HAMILTON, Colonel,
Deputy Secretary to Government.

Fort Saint George,
14*th September* 1866.

No. 631. Order thereon, 26th September 1866, No. 3,078.

MILITARY WORKS, No. 41.

The Superintending Engineer of the 4th Division, to whom a copy of this letter will be forwarded, is requested to prepare and submit an estimate of the probable cost of constructing a boiler house on the accompanying plan. The boiler should be set as shown in pencil.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

From

Colonel J. L. Parron

Acting Inspector General of Ordnance and Magazines,

To

The Secretary to Government
Military Department.

Sir,

I have the honor to forward herewith plans of house for a Boiler recently received from England, for the Gun Carriage Manufactory, and estimated to cost Rupees 2500-0-0.

2 The necessity for setting up this Boiler at an early date is called for, under the circumstances set forth in the annexed Extract from a letter from the Superintendent Gun Carriage Manufactory, and on the grounds of practical economy,

I beg to recommend that the sanction of Government

The one boiler in use has now been working more constantly than would admit of its being kept in proper order for eight years, and has arrived at an age which renders some extra care necessary to its safety; it is therefore of importance that the setting of the new boiler and consequent relief of the old one for examination and repair, should be expedited.

Government be accorded for the work being pro-
-ceeded with as early as possible.-

I have the honor to be,
Sir,
