(RP)

No. 660. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Madura, 6th September 1866, No. 884 :—

1. I have the honor to forward the Statement of reductions in allotments of funds, as requ ired by G. O. No. 2,601 of the 18th ultimo.

Enclosure 1.

2. Reductions are made on the works which extend beyond the present year; but there are several works intended to be completed within this year, and the sums to be brought forward in another year would be so small, that I think it much better to finish them off at once. To make good the excess remaining on these works, an additional reduction is made in the Madura District from the Paumben channel* work, and in the Tinnevelly District from the construction of unmade portions of Trunk Road† No. 4.

* Rupees 7,000.

† Rupees 10,000.

3. The grant of Rupees 1,500 for Police Buildings, (new,) in Madura remains undisturbed, as there are many calls for station houses, huts, &c., for which there is no money. The grant of Rupees 1,500 for Military Works, (new,) in Tinnevelly is also unreduced; this is the second year in which the grant has been made for a specific purpose, and the work should be completed. Other reductions appear not to require notice, except that for Minor Repairs to Buildings, Military: the origina allotment of Rupees 790 has been fully appropriated, and the due deduction of 79 Rupees has been made from the allotment "Minor repairs to roads, &c."

4. The Government have already authorized me to carry on certain Military works, for which there are no funds available at present, viz. :—

G. O. No. 2,711 of 28th August 1866.

For New Works	Rupees	2,510
For Repairs	„	830

and as grants for Military works are not interchangeable with those under other heads, I should perhaps apply, later in the year, for an additional grant to make good the excess amounts retained, as shown above—

In New Works	Rupees	1,500
In Repairs	„	79

In this case, these latter sums would hereafter revert to the allotments from which they have now been temporarily taken.

5. In paragraph 16 of G. O. No. 1,996, of the 25th June 1866, it is expected that there will be an expenditure of Rupees 30,000 on the new Jail at Madura; this sum has not been formally allotted, and as it is not included in the Controller's General Statement of Reductions, the full amount is considered available for expenditure.

EIGHTH DIVISION.

Detail of reductions to be made in the sanctioned allotments for each work in the Districts of Madura and Tinnevelly.—*Vide* G. O. No. 2,601, dated 18th August 1866.
