Dated 1 — 10 — 1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department 1st October 1866.

No. 1.

CIVIL WORKS, No. 1.

Dated 1*st October* 1866, *No.* 3,106.

In drawing the particular attention of the Superintending Engineer of the 6th Division to the Proceedings of Government, No. 3,060, dated 24th September 1866, His Excellency the Governor in Council wishes Captain Oakes to understand that, it being an object of great importance to relieve the present overcrowded state of the District Jails, as well as to reduce the cost of the new Central Jail which it is proposed to erect at Trichinopoly by giving healthful employment to as large a number as possible of prisoners on its construction, it will be his duty to make the utmost exertions to provide the requisite temporary buildings for their accommodation and for that of the Police guarding them. As soon as each portion of the requisite temporary buildings is completed the Superintending Engineer will apply to the Inspector General of Jails for a draft of convicts, who will assist in erecting other portions, which, in their turn, should be occupied in the same way by successive drafts till the full number of prisoners that can be usefully engaged is established upon the spot, when the construction of the hospital and one compartment of the radial plan, with its external wall, its palisades, and the buildings belonging to it should be cotemporaneously commenced and completed.

Proceedings of the Madras Government

Under date the 12th Octr/66

In drawing the particular attention of the Superintending Engineer of the 6th Division to the Proceedings of Govt. No 3066 dated 24th September 166, His Excellency the Governor in Council wishes Captain Oakes to understand that, it being an object of great importance to relieve the present overcrowded state of the District Jails, as well as to reduce the

the cost of the new Cen
=tral Jail which it is
proposed to erect at
Trichinopoly by giving
healthful employment
to as large a number as
possible of prisoners on
its construction, it will be
his duty to make the ut
=most exertions to provide
the requisite temporary
buildings for their accom
=modation and for that
of the Police guarding
them. As soon as each
portion of the requisite temporary
buildings is completed,
the Superintending Engineer
will apply to the Inspector
General of Jails for a
draft of Convicts, who
will
