Proceedings of the Madras Government, Public Department,

26th September 1866.

No. 144. Read the following letter from the President of the Civil Dispensary Committee, Cuddapah, to the Chief Secretary to Government, Fort Saint George; dated Cuddapah, 8th September 1866, No. 35.

It is now three years since the Dispensary here became self-supporting, during which time, through the constant assiduity of the Native Surgeon, Iyasamy Pillay, the attendance has more than doubled, and the advantages of such an Institution have become more generally known. The subscriptions have amounted to nearly Rupees 40,000, of which Rupees 37,000 have been invested in the 5 per cent. Government Loan, and the Committee have now voted Rupees 2000 to build a house for a Dresser in the Dispensary Compound, and also a Cholera Ward. The cost of these will be altogether Rupees 4000.

This year it will probably be Rupees 5000.

2. The Government have ruled that on no account is a cholera patient to be admitted into a Dispensary. The necessity, therefore, for this building is self-evident, and it is also very necessary that a Dresser should be at all times close at hand. I have the honor, therefore, to request that you will obtain from Government a grant-in-aid of Rupees 2000.

No. 145. ORDER THEREON, 26th September 1866, No. 971.

The Governor in Council will readily sanction a grant of Rupees (2000) two thousand towards the erection of the proposed buildings in the Dispensary Compound at Cuddapah, estimated to cost Rupees 4000, if the plans meet with their approval. The Committee are requested to forward these for inspection.

2. Orders will be issued in the Public Works Department, for the due supervision of the work by the Executive Engineer of the Range.
