Not to be folded or roughly handled

Read the following papers :—

No. 396. Endorsement of the Principal Inspector General, Medical Department, dated Fort Saint George, 24th September 1866, No. 351.

Memorandum from the Deputy Inspector General of Hospitals, Mysore Division, to the Secretary to the Principal Inspector General, Medical Department, dated 20th September 1866, No. 1,573.

Submits, for the consideration of the Principal Inspector General, Medical Department, application from Assistant Apothecary Wade, soliciting to be put in orders as affording medical aid to Department of Public Works at Goodaloor, with a view to his receiving the usual remuneration.

From the Assistant Apothecary in Medical charge, Goodaloor, to the Deputy Inspector General of Hospitals, Mysore Division, Bangalore, dated Goodaloor, 16th September 1866, No. 33.

1. May I request you will have the goodness to apply to the Principal Inspector General, Medical Department, to do me the favour of gazetting me as having been considered to have afforded medical aid to the Department Public Works, South Wynaad Range, from the 17th February 1865, the date of my arrival at Goodaloor.

2. I have been virtually doing this work ever since my arrival here, the performance of which necessitated my having to keep a pony, as frequently during the above period I have travelled distances of eight and ten miles at the requisition of the Engineer Officer in charge. Again, the quarters of the whole of the Engineer's establishment at Goodaloor are situated at a distance of one and a half mile from the Dispensary, and my visits to see the sick at this place are nearly of daily occurrence.

3. I presume that should I be gazetted, the per-centage allowance passed to the Subordinate Officers of the Department Public Works for serving in Wynaad would also be passed to me in common with them, and as it is a pecuniary consideration, I would beg the indulgence, and for which I shall feel thankful. I enclose copies of two certificates granted by the Officers in charge.

No. 15.

Mr. Wade, the Medical Officer attached to Goodaloor, has asked me to certify that he has visited and attended to individuals connected with the Public Works Department, South-East Wynaad. I do so with pleasure. Since my arrival at Goodaloor, about the end of April 1866, Mr. Wade has visited and attended to such individuals not only at Goodaloor but also at Nadakanny, nine and a half miles from Goodaloor.

(Signed) W. CONINGHAM, Lieut., R. E.,
Acting Executive Engineer.

Goodaloor,
5th September 1866.

To Mr. Wade, Medical Officer, Goodaloor.

(True Copy.)

(Signed) M. WADE,
Asst. Apothecary in Medical charge, Goodaloor.

From the Assistant Engineer, Wynaad Range, to the Assistant Apothecary in Medical charge, Goodaloor, dated Chittoor, 13th September 1866.

1. I have much pleasure in acknowledging the great assistance you gave the Department Public Works in South-East Wynaad, from March 1865 to May 1866, not only as Officer in charge of the duty, but in the frequent visits you paid to the out-stations many miles distant.

2. These visits to out-stations always produced the most favorable results, especially in the sanitary measures which you invariably induced the work-people to adopt, and in the remedial measures which you introduced among them for the prevention and cure of jungle fever.

3. I can safely say that the people had confidence in your treatment, and that your occasional presence among them had in a great measure helped me in keeping such large gangs of work-people together.

(True Copy.)

(Signed) M. WADE,
Assistant Apothecary, Goodaloor.

Forwarded to the Secretary to Government, Department Public Works, for orders, should it be considered desirable to appoint the Assistant Apothecary to the medical charge of the Public Works Department in Wynaad.

(Signed) J. SHAW,
Princpl. Inspr. General, Medical Department.

Referred to the Superintending Engineer of the 7th Division for any remarks which he may wish to offer.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government, P. W. D.

FORT SAINT GEORGE,
28th September 1866.

No. 397. From the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Camp, Coonoor, 1st October 1866, No. 131.

I have the honor to remark with reference to your Endorsement of the 28th September on the papers returned herewith, that it would be very convenient to have some Medical Subordinate to whom the Public Works Department in Wynaad might look for treatment whenever necessary. But the best arrangement seems to me that which is made for the Vythery Range, in which a Dresser is placed at Captain Kennedy's exclusive disposal, so that the Apothecary in charge of the Sappers need never be called on to leave Luckady. I recommend, therefore, that a Dresser be similarly attached to the North and South Wynaad Ranges, with such salary and travelling allowances as may be approved by the Principal Inspector General of Hospitals.

Memorandum No. 351 of 24th September 1866, from the Principal Inspector General, Medical Department, with four Enclosures.

No. 398. ORDER THEREON, 16th October 1866, No. 3,308.

ESTABLISHMENT, No. 31.

The foregoing letter from the Superintending Engineer of the 7th Division will be communicated to the Principal Inspector General of the Medical Department with reference to his Memorandum No. 351, dated the 24th September 1866. Mr. Shaw will report whether a Dresser can be detached for employment in the North and South Wynaad Ranges, and, if so, what salary and travelling allowance it would be proper to give.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Principal Inspector General, Medical Department.
" Superintending Engineer, 7th Division.

My dear Brade

I can't express in sufficient language the great Assistance you gave the D. of W. in Lenth last Wynaad from March 1816 to May 1816. both as Officer in Charge of the Depot but in the frequent Visits you paid to the Battalions many Miles distant

These Visits & Battalions always produced the most favorable results especially in the Sanitary treatment which you invariably introduced the Workpeople & Coolies. And in the introduced treatment which you introduced among them for the prevention and Cure of Jungle Fever.

I can safely say that the people had confidence in your treatment and that your Professional Judgment among them led in a great measure the Success in Clearing such large Jungle of Workpeople together

Yours &c
