Proceedings of the Madras Government, Public Works Department,
***18th October* 1866.**

No. 402. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Waltair, 1st October 1866, No. 138 :—

1. I have the honor to enclose a letter addressed to me, and to urge that permission be granted for the completion, departmentally, of the aqueduct over the Chintapilly Calingula Channel,* the cost to be re-paid to the writers (who propose to advance the funds now) from next year's Budget.

* Plan, &c., sanctioned in No. 3,361 of 10th November 1865.

2. I was not informed by Mr. Sage of the expensive steps that these people had taken, and understood that he stopped the work as begun by them, only, because the workmanship was inferior.

3. I propose, if Government allow, to receive the money from the petitioners, and to carry out the work as speedily as possible; but I would submit that the ryots deserve some consideration also for the advance they make of money.

No. 403. ORDER THEREON, 18th October 1866, No. 3,311.

CIVIL WORKS, No. 78.

1. The Government, while regretting that funds are not immediately forthcoming from the Imperial assignment for the construction of the aqueduct referred to in this letter, are unable to recognize the arrangement which the Superintending Engineer proposes for the execution of that work, under departmental agency, from money to be advanced by private individuals.

2. Colonel Moberly will enter the project in his Budget of 1867-68.
