Read the following papers :—

From the Quarter Master General..... Here enter 13th September 1866, No. $\frac{555}{7144}$.
Report from the Controller of Military Accounts... ,, 28th ,, ,, G.

From the Quarter Master General, Head Quarters, Ootacamund, 13th September 1866, No. $\frac{555}{7144}$, to the Deputy Secretary to Government, Military Department, Fort Saint George.

1. With reference to the Order of Government, directing that the average rate of expenditure which should suffice for white-washing the huts of a Native Corps for sanitary purposes, on the outbreak of epidemics, should be ascertained and reported, I have the honor, by desire of His Excellency the Commander-in-Chief, to state that it is found to be impossible to strike any such average rate, which would be of the least use, the price of lime per parah varying from 2 Annas and 7½ Pies, to 1 Rupee and 5 Annas, at the different stations throughout the Presidency.

No. 1,315, dated 13th April 1866.

2. The quantity of lime required to white-wash a Sepoy's hut, as reported by the Officers of the Department Public Works, varies very little, the average per hut being three-fourths of of a parah, and His Excellency would accordingly recommend that the limit of expenditure to be incurred be fixed at that quantity per hut. The number of huts to be white-washed will depend upon circumstances, and the quantity of lime to be expended per Regiment will vary in a corresponding degree.

With report from the Controller of Military Accounts, 28th September 1866, G.

Approved. The quantity of lime for white-washing huts of Native Troops will be regulated accordingly, at three-fourths of a parah for each hut.
