PUBLIC WORKS DEPARTMENT.

G.O. No. 3401 & 3402	Press / Mis.
Dated 1-11	18 41.

Not to be folded or roughly handled

No. 27. Read the following letter from the Officiating Commissioner for the Government of the Territories of His Highness the Maharajah of Mysore, to the Secretary to Government, Public Works Department, dated Bangalore, 22nd October 1866, No. 3,747-26 :—

From Secretary to Government, Public Works Department, Fort Saint George, No. 417-86. dated 2nd February 1866.
To do. do. do. No. 2,043-14, dated 7th August 1866.

With reference to letters marginally noted, I have the honor to transmit, for the information of His Excellency the Governor in Council, copy of a letter No. 3,152-421, dated 15th instant, from the Chief Engineer in Mysore, communicating particulars regarding the present condition of the new Main Sewer of the Bangalore Cantonment Bazaar.

From the Chief Engineer of Mysore, to the Secretary to the Commissioner for the Government of the Territories of His Highness the Rajah of Mysore, dated Bangalore, the 15th October 1866, No. 3,152-421.

1. Adverting to Colonel Orr's letter, No. 417, of the 2nd February 1866, which laid down the view entertained by the Madras Government, that as the new Main Sewer of the Cantonment Bazaar had been built by this Department, it should be repaired by us, I have the honor to bring to the Commissioner's notice that on examining on the 12th instant the outfall channel extending past the Dunmaloor tank, I found that the work had suffered from extreme neglect on the part of the Madras authorities, who, by Government of India letter, No. 3,796, of the 26th August 1863, were specially charged with maintaining the works in an efficient state.

2. I found that the side wall of a large aqueduct near Dunmaloor tank had been allowed to fall in, and the work otherwise injured, thereby entirely stopping the outfall channel, and sending the whole of the sewage into the tank ; and, again, a little lower down, that the tank had breached back into the outfall channel. Further on just at the tail of the work a portion of bund and revetment separating the tank from the drainage channel was showing great signs of weakness from neglect.

3. I only mention these facts with a view to avoid misapprehension in future, and without any object of simply calling in question the proceedings of the Madras authorities.

(True Copy.)

(Signed) C. SAUNDERS,
Officiating Commissioner.

Chief Engineer of Mysore.

To
The Secretary to the Commissioner
for the Government of the Territories
of His Highness the Rajah of Mysore.
Dated the 15th October 1866.

Civil Works

Sir,

Adverting to Colonel Ives' letter Nº 117 of the 2nd February 1866, which laid down the rules under which the Madras Government, that as the new sewerage Scheme of the Cantonment Bazaar had been built by the Department it should be repaired by us, I have the honor to bring to the Commissioner's notice that on the morning of the 12th instant the outfall channel, leading from the Dumdoor Tank, I found had the work had suffered from extreme neglect on the part of the Madras Authorities, who, by Government of India letter Nº 3796 of the 28th August 1863, were specially charged with maintaining the works in an efficient state.-

2. I found that the side wall of a large Aqueduct near Dumdoor Tank, had been allowed to fall in, and the work otherwise injured, thereby entirely stopping the outfall Channel, and sending the whole of the Sewage into the Tank, and, Again a little lower down that the bank had breached back into the outfall channel. Further on just at the end of the work a portion of bund

and

and revetment seperating the Tank from the drainage channel was showing great signs of weakness from neglect.

3. I only mention these facts with a view to avoid misapprehension in future, and without any object of simply calling in question the proceedings of the Madras Authorities.-

I have the honor to be Sir
(Signed) R. H. Sankey Major R.E.
Chief Engineer of Mysore.
