Proceedings of the Madras Government, Public Works Department, 7th November 1866.

No. 154. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Vellore, 26th October 1866, No. 2,801 :—

1. I have the honor to submit, for the sanction of Government, an Abstract Estimate, amounting to Rupees 600, for constructing a twenty-five yards sluice, according to the standard plan, in the bund of the Kottagarampollium tank, in the Polur Táluq, Polur Range, North Arcot District.

1 Abstract Estimate.
1 Ayacut Statement.

2. The work in question is fed partly by the Kamandala Nuddy, and partly by the drainage of the adjacent hills, and is one of the largest in the Range. The accompanying Ayacut Statement, furnished by the Collector of North Arcot, will show that the average revenue of the last five years depending on the tank is Rupees 1,504; that the highest revenue in the same period was Rupees 2,098; and that the tank was last repaired in 1863 at a cost of Rupees 320. The tank, however, breached lately during the rains, and the cost of repairing the same is estimated at Rupees 1,200. These repairs are in progress.

3. The new sluice is intended to replace one constructed only so far back as 1863-64, which I regret to say, chiefly from faultiness, is now in ruins.

4. The Collector has countersigned the estimate in token of approval.

5. There are no funds just now available for this work, but I request that formal sanction may be accorded to the estimate, on the condition that it should not be put into execution until funds can be provided, or until arrangements can be made for getting it done by a Contractor on promise of payment out of the funds* of the next official year.

* Agricultural Minor New Work grant.

No. 155. ORDER THEREON, 7th November 1866, No. 3,556.

CIVIL WORKS, No. 31.

The estimate of Rupees 600 submitted with this letter is sanctioned, but the work should not be put in hand unless the Superintending Engineer can provide funds for its execution.

(True Extract.)

Colonel A. J. M. Boileau R.E
Superintending Engineer 4th D

To,

Colonel C. A. Orr R. E.
Secretary to Government P.W.

Sir,

I have the honor to submit for the
sanction of Government an Abstract estimate
amounting to Rupees 600 for constructing
a 25 yards Sluice according to the Standa
plan in the bund of the Kottaiyarumpollu
Tank in the Polur Taluq Polur Range North
Arcot District.—

2— The work in question is fed
partly by the Ramandala Ruddy and partly
by the drainage of the adjacent hills and is
one of the largest in the Range. The accom-
-panying Ayacut Statement furnished by
the Collector of North Arcot will shew
that the Average revenue of the last five
years depending on the Tank is Rupees 1504;
that the highest revenue in the same period
was Rupees 2098 and that the Tank was last
repaired in 1863 at a Cost of Rupees 320.
The Tank however breached lately during

the

the rains and the Cost of repairing the same is estimated at Rupees 1200. These repairs are in progress.—

3. The new Sluice is intended to replace one constructed only so far back as 1863/64, which I regret to say, chiefly from faultiness is now in ruins.

4. The Collector has Countersigned the estimate in token of approval.

5. There are no funds just now available for this work, but I request that formal sanction may be accorded to the estimate on the Condition that it should not be put into execution until funds can be provided or until arrangements can be made for getting it done by a Contractor on promise of payment out of the funds of the next Official year.
