**Proceedings of the Madras Government, Public Works Department,
29th November 1866.**

No. 636. Read the following Proceedings of the Madras Government in the Educational Department:—

Communicating letter from the Director of Public Instruction with a view to the attention of the Executive Engineer of the Range being drawn to the defects in the construction of the Normal School-house at Vizagapatam. (Here enter 21st November 1866, No. 351.)

No. 637. ORDER THEREON, 29th November 1866, No. 3,801.

Communicated to the Superintending Engineer of the 1st Division who will explain the cause of the defects in the construction of the Normal School-house at Vizagapatam and arrange for the repair of the building.

(True Extract.)
(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 1st Division.
Educational Department,

Exd. S. T. Augustin.

*Proceedings of the Madras Government, Educational Department,
21st November 1866.*

No. 65. Read the following letter from the Director of Public Instruction, to the Chief Secretary to Government, Fort Saint George; dated Madras, 15th November 1866, No. 2385.

In sending the enclosed letter, No. 216, dated the 5th instant, from the Inspector of Schools, 1st Division, I have the honor to request that the attention of the Public Works Department may be drawn to the state of the Normal School-house at Vizagapatam, which appears to have been constructed in a very faulty manner.

From the Inspector of Schools, 1st Division, to the Director of Public Instruction; dated Masulipatam, 5th November 1866, No. 216.

I regret to have to report that the roof of the new Government Normal School at Vizagapatam, during the recent monsoon, has leaked to a considerable and very inconvenient extent.

2. The School was first occupied on the 17th September. In August, the Executive Engineer reported to me that the building was ready, and requested that the Educational Department would take it over, but just at that time two or three heavy showers of rain fell, and the verandahs showed unmistakable signs of leakage; it, therefore seemed inadvisable to take charge of it until an opportunity was given of stopping the cracks. This was done, under the direction of the Executive Engineer, and, as I have said, the School was occupied on the 17th September for the first time.

3. In October the monsoon rains set in, and the Head Master reports that the whole of the verandahs leaked to such an extent that there was scarcely a dry spot on the floors. The Head Master's Class-room leaked considerably in three places; while the two small rooms at the south-west end—one of which has been appropriated to the Book Depot, and the other is an Office-room—leaked so, that, before the articles could be removed from them, maps and other things were injured. The case appears to be one about which orders should be issued by Government through the Public Works Department.

No. 66. ORDER THEREON, 21st November 1866, No. 351.

Communicated to the Department Public Works, in view to the immediate attention of the Executive Engineer of the Division being drawn to the condition of this building and for any explanation he may have to offer of the obvious defects in its construction.

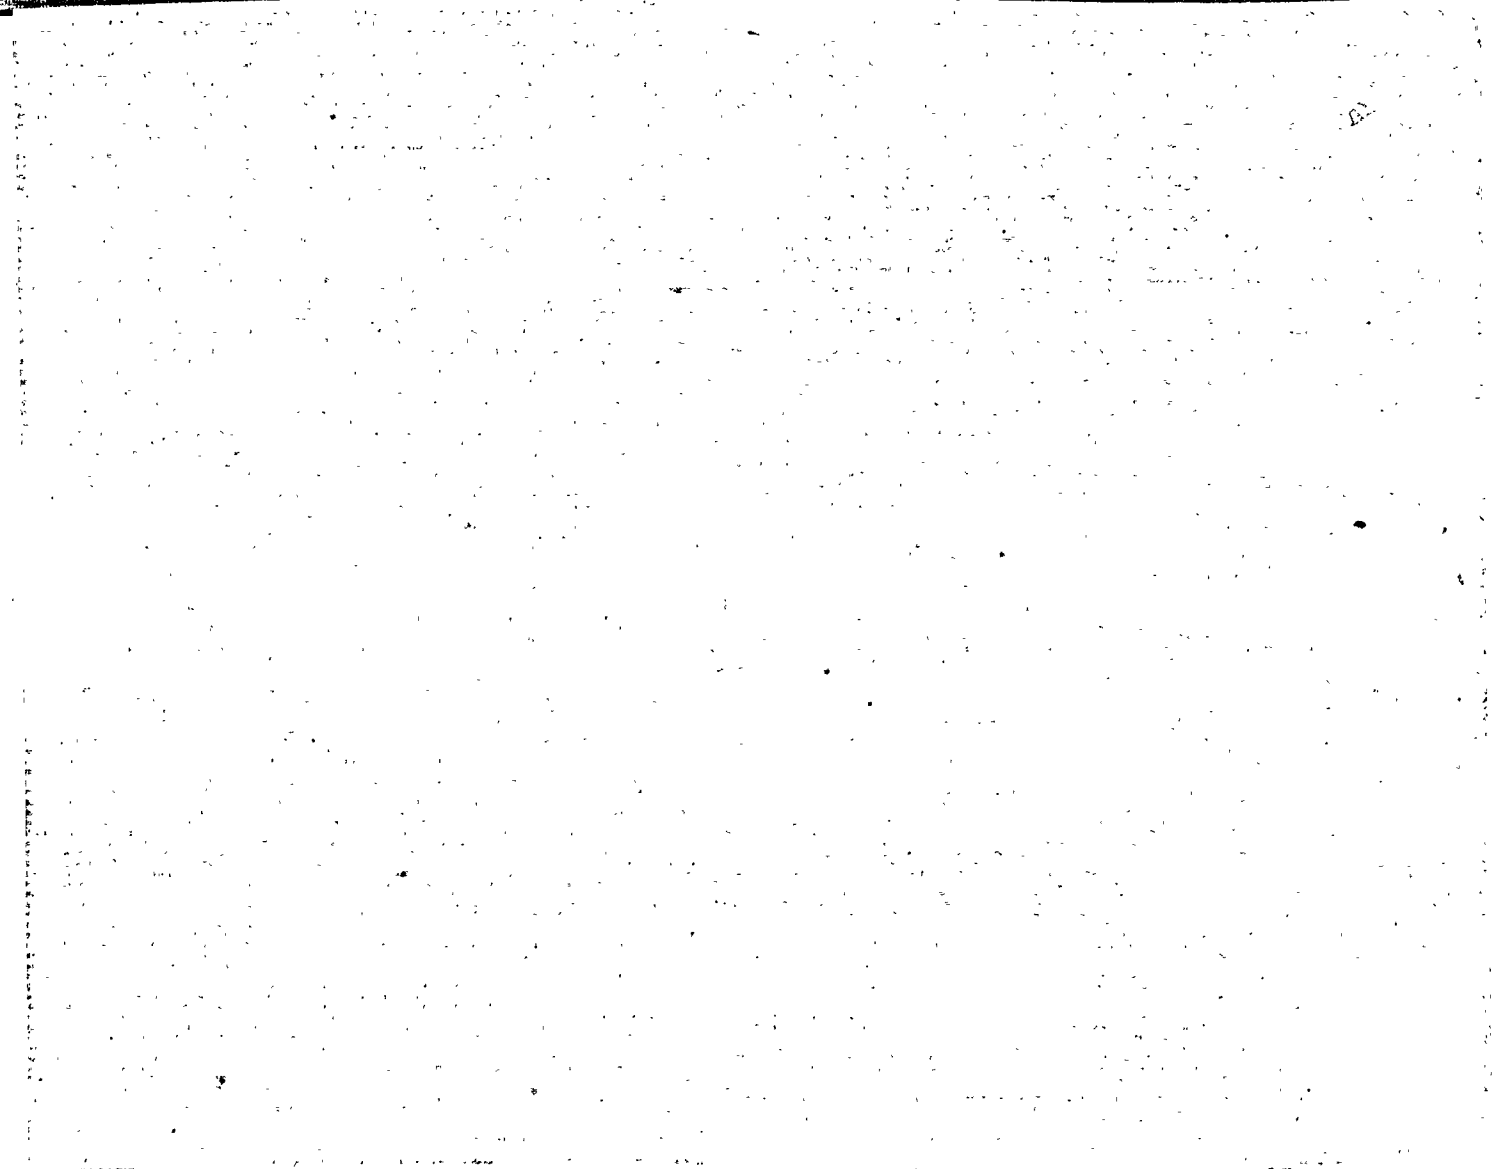

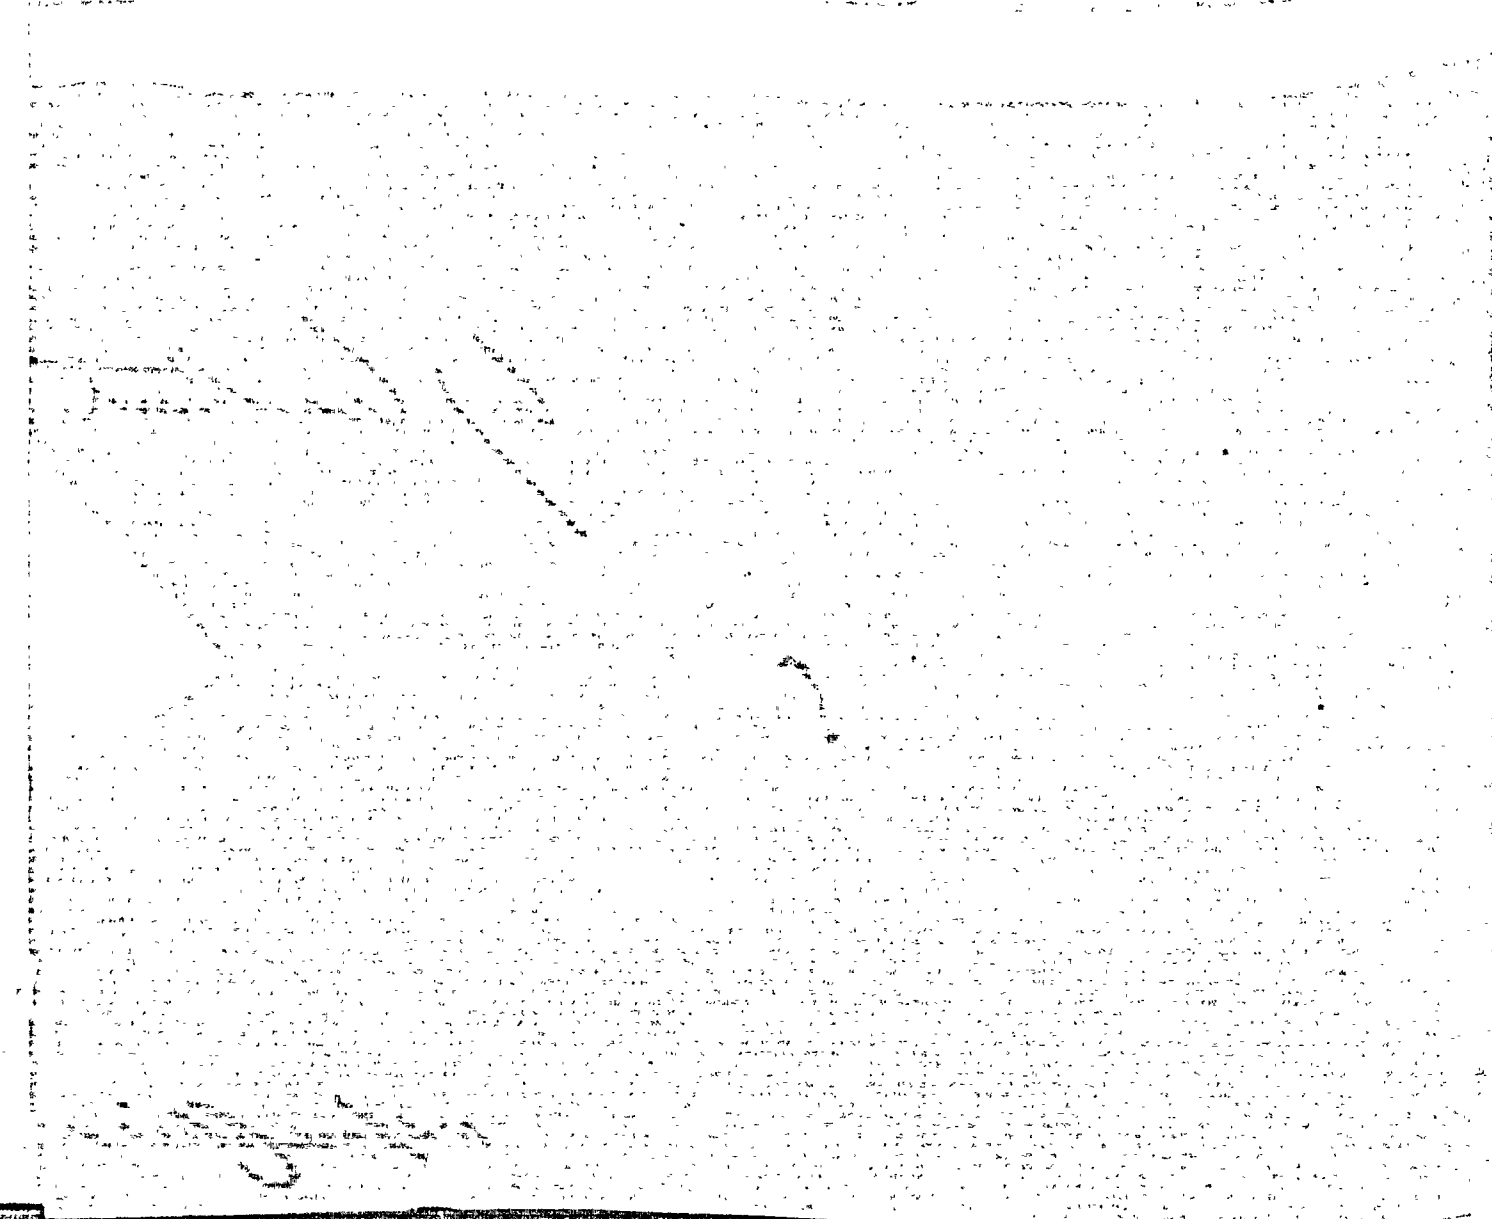

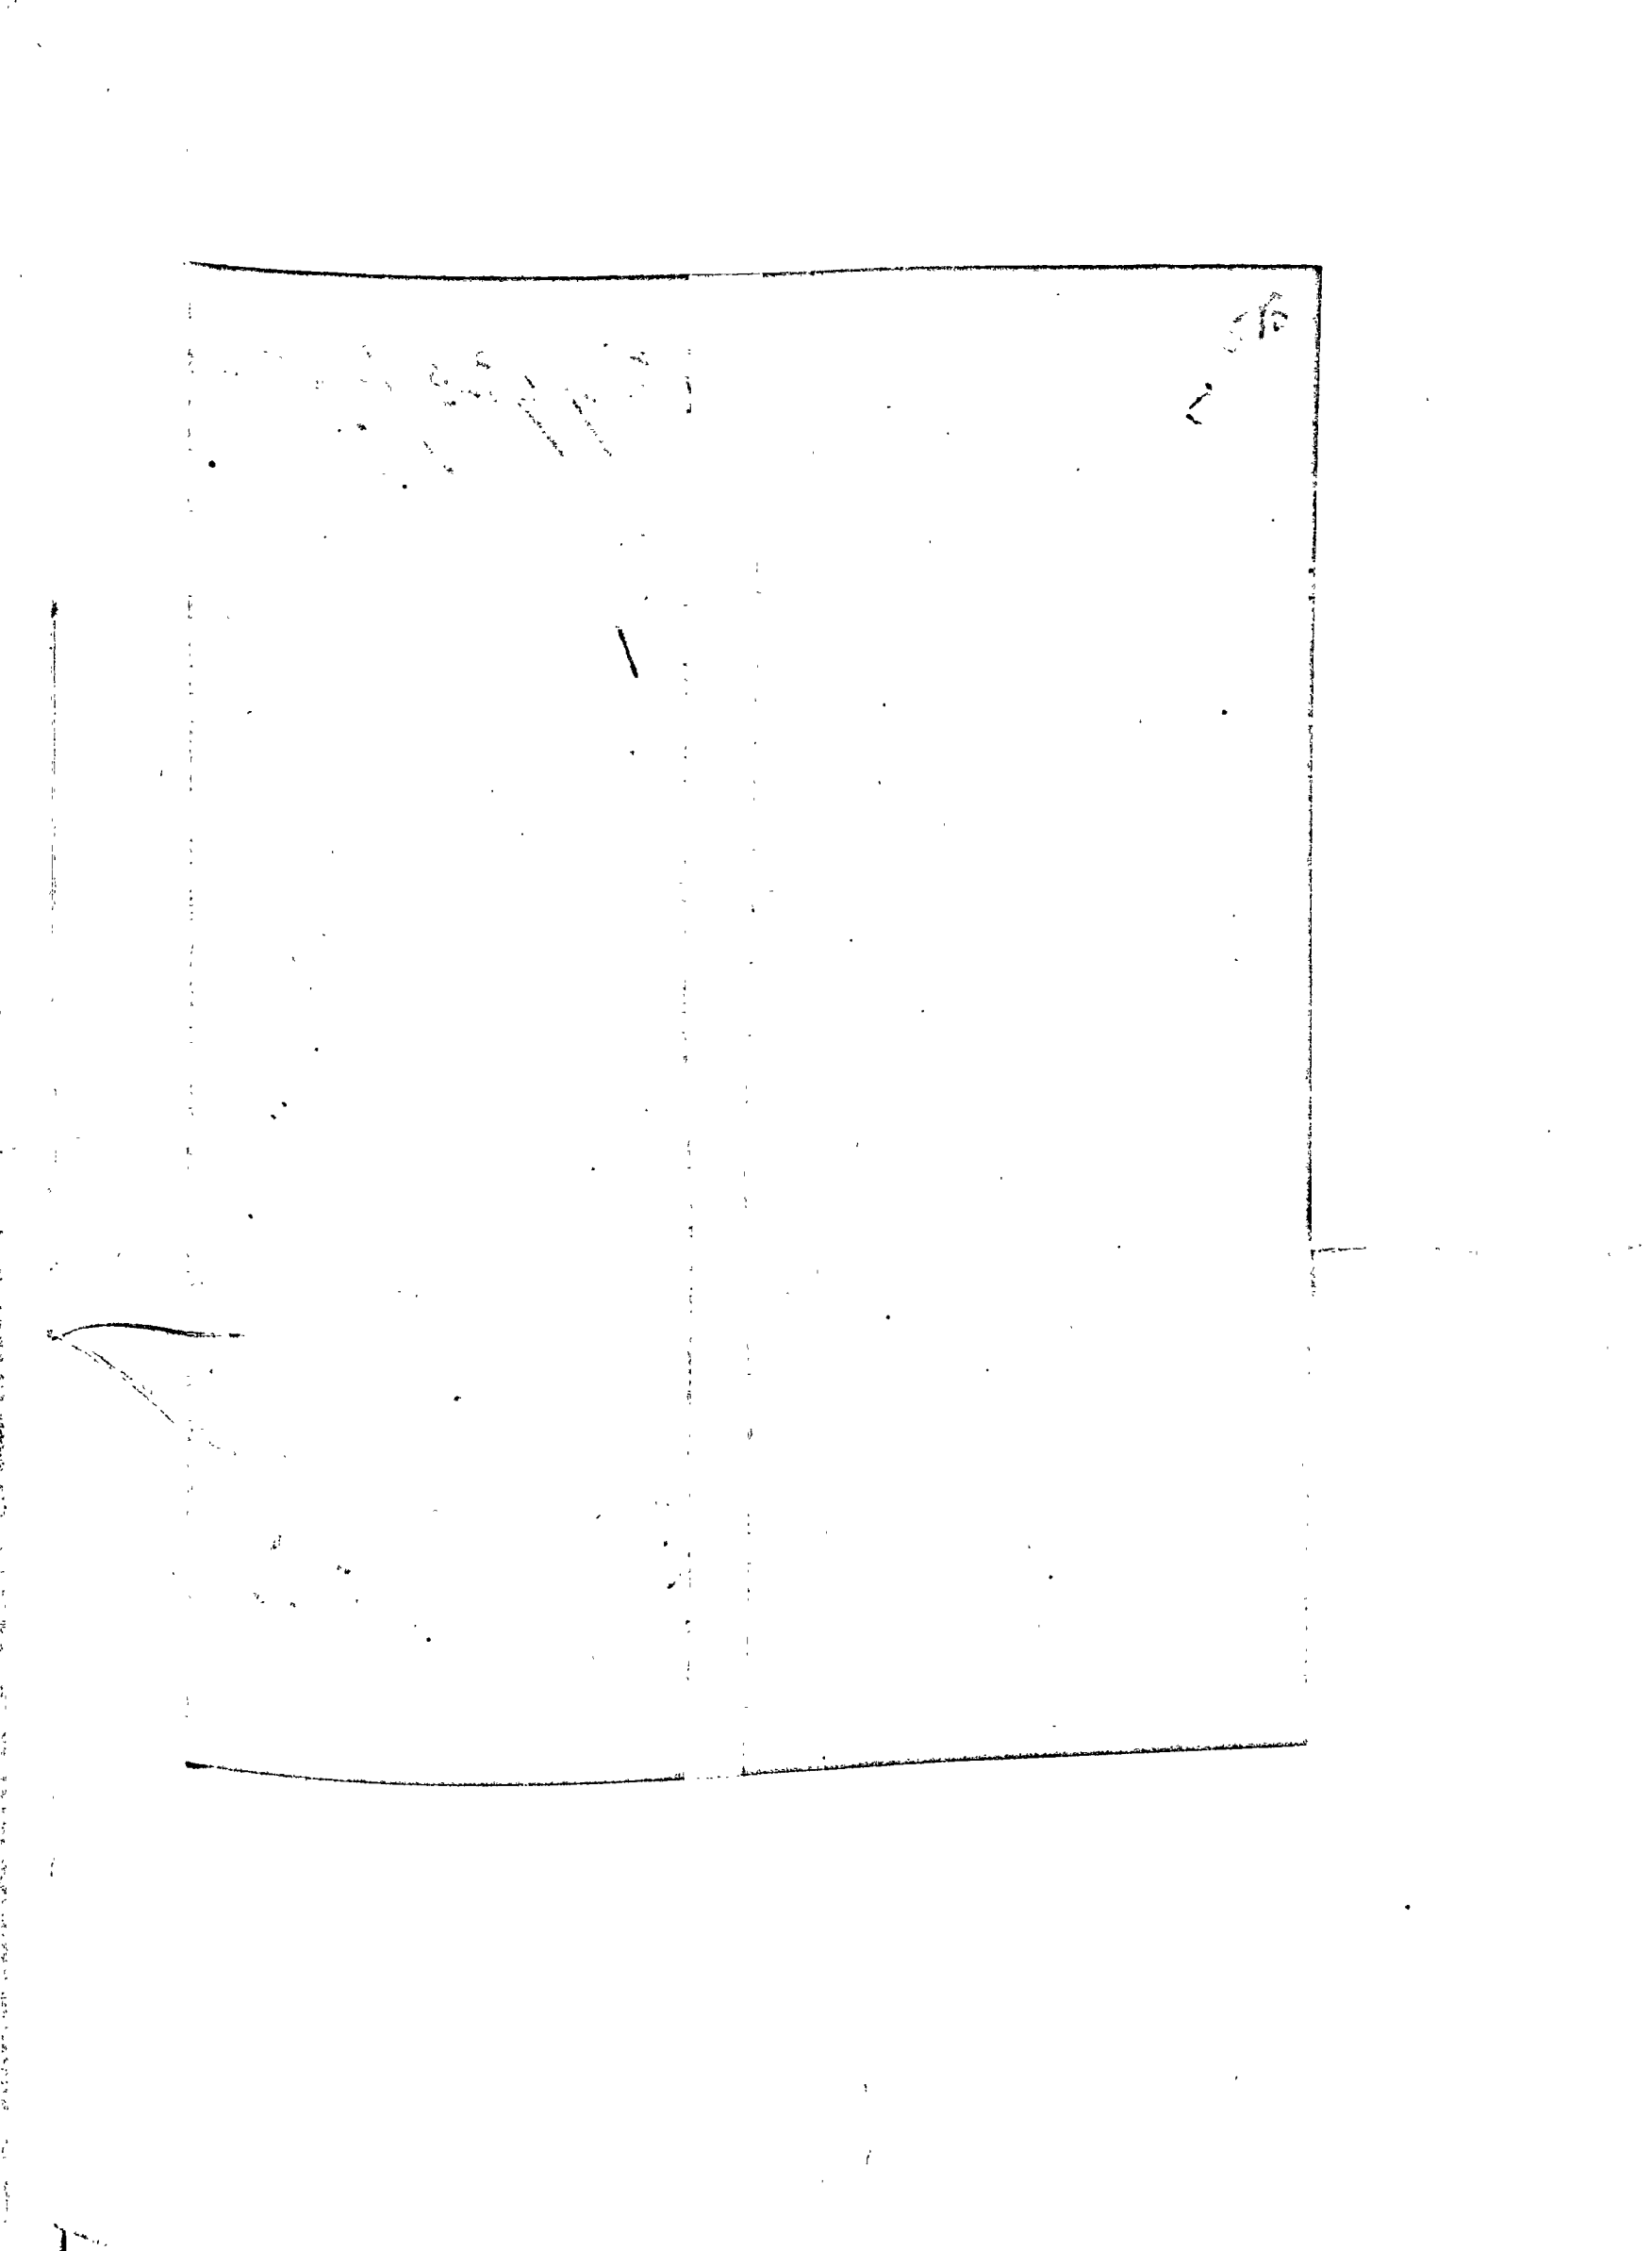

(True Extract).
