MADRAS RECORD OFFICE.

Government of Madras.

Public works DEPARTMENT.

G.O. No. 3807 Press
648-649 Mis.

Dated 29-11- 1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
29th November 1866.

No. 648. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 7th November 1866, No. 2,477 :—

1. In submitting for sanction the accompanying plans and estimates for Workshops for the Artillery at this station, agreeably to the Orders of Government, I have the honor to inform you

G. O. No. 2,560, of 14th August 1866.

that I have not submitted them for the approval of His Excellency the Commander-in-Chief, as they are prepared according to the standard plan. The necessity for these buildings has been already admitted.

2. With my letter No. 2,257 of 29th ultimo, I submitted a Statement showing the works proposed to be constructed from the balance of the Budget allotment, as called for in G. O. No. 3,156 of the 4th idem.

3. In submitting these estimates, which are estimated to be constructed of stone and chunam, as permanent buildings, I am desired by the Major General Commanding the Division to point this out, as he wishes to know the instructions of Government on the subject, the other buildings for the Artillery having been constructed as temporary of stone in mud. I would strongly urge that the estimates, as drawn up, be sanctioned, as proper clay is very difficult to be procured, and the trouble we have had with many of the buildings in Bellary from their having been constructed of stone in mud, shows that it should not, if possible, be used in the walls, besides this, the mud in the walls admits of the white-ants getting into the wood-work of the roof.

No. 649. ORDER THEREON, 29th November 1866, No. 3,807.

MILITARY WORKS, No. 41.

1. For the reasons explained in paragraph 3 of this letter, the Government sanction the following estimates :—

	Rs.
Constructing Collar-makers and Carpenter's Workshops for the Artillery at Bellary	8,490
Do. a Blacksmith's Forge for do.	3,770
Do. an Artificer's shed for do.	1,440

2. Adverting to paragraph 2 of G. O. No. 3,541, dated 6th November 1866, Major Moberly will report whether he proposes to appropriate to these buildings the whole of the sum remaining to the credit of the Reserve under "Military," or if not, what portion.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 3rd Division, with three Specifications.
