To

Major G. N. Price
Chief Engineer

Bolarum

Secunderabad 3rd November 1866.

Sir

I have the honor by order to forward herewith the copy of letter N and date as per margin from the Assistant Commissary General requesting that the Brigadier General commanding N. S. Fore will adopt measures to expedite the erection of the Battery required to be built at Spinnulgherry.

24820731 + ulb.

II. The Assistant Commissary General also brings to notice that the Machinery required for the Battery and the Engineer who has been engaged to erect it, may shortly be expected here.

III. Under these circumstances I am directed to state that the Brigadier General hopes the Resident will be so good as to obtain the sanction of the Supreme Government for the building to be commenced at once.

IV. I am also to add that this is the first intimation the Brigadier General has received of these arrangements connected with the Battery at this Station.

Sir With reference to the accompanying copy
of Telegram from the Commissary General
I have the honor to request that the Brigadier
General commanding will adopt measures to
expedite the erection of the Bakery urgently
required for this Station.

The Machinery will be sent up shortly
from Madras and the Engineer who was sent
out from England on a salary of Rs 360 per
mensem for putting up the Machinery will
Col. London Commissary Genl. inform me
have completed his work at Bangalore and
be ready to come on here in about 3 months.

As the Engineer has only been engaged
for 9 months it is very important that on
his arrival here the building should be suf-
ficiently advanced for him to commence with
the Machinery so that he may not be de-
tained and his work be completed before the
period of his engagement expires.

Recd. Office Colarum 13th November 1866

Sir

Referring to my letter No. 9 dated the
8th May 1863, I have the honor, under in-
structions from the Resident, to submit for
the consideration and orders of the Govern-
ment of India the enclosed correspondence

From J. H. D. General H. S. Lee
No. 318 dated 3rd Nov. 1866 and Enclosures.
no Secy to Govt Madras to Resident
Hyderabad No. 3596 of 15th Dec. 1866.
No. 137 dated 19th January 1865.
no Madras Govt No. 122 of 13th Feb. 1865.

regarding the erection of a
Steam Bakery at Trimmale

Sherry for the use of the
European troops located there

The Plans and Estimate for which building
were forwarded with my letter above quoted
and have not yet been returned.

2. It will be seen that the Madras
Government asked the Resident for a Design
of the Bakery proposed to be built at Trimmale
Sherry, and a copy of the one furnished to
the Government of India was sent from this

This Office in February 1865 which was ap-
proved by the Government of Madras, but
as it was found impossible to provide for
the Bakery in any of the late Budgets
owing to the press of other and more impor-
tant work, the subject has therefore been
kept in abeyance. It now appears from
the Assistant Quarter Master General's letter
conveying the first intelligence of the Bakery
being immediately required, that all the
necessary machinery, together with an Engi-
neer, whose services were engaged in England,
will be sent to Secunderabad in about 3
months' time after completing his work at
Bangalore and that he has only 6 months
more to serve in this country.

Under these circumstances the
Resident does not see that there would be
any use whatever in the said Engineer com-
ing here at present for it is not possible,
with all the work that is in hand, to get
the building ready for placing the machin-
ery in it within the next 6 months even
were it to be commenced at once, and it
has been so represented, I am to state, in
a letter just despatched to the Madras Govt.

I have the honor &c.

MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

From the Secretary to the Resident at Hyderabad, Department Public Works,
Bolarum, 13th November 1866, No. 3287; to the Secretary to Government,
Public Works Department.

I have the honor, by desire of the Resident, to enclose for information the
copy of a letter to my address from the
Assistant Quarter Master General, Hyder-
abad Subsidiary Force, regarding a

Enclosures two.

bakery which is required to be undertaken without a day's delay, in order to put
up the machinery which is said to be on its way from Madras.

2. As this is the first intimation that has reached the Resident since receiv-
ing your letter No. 432, dated 13th February 1865, regarding the urgent need of
the bakery in question, and as there appears no advantage to be gained in com-
mencing it on so short a notice, the Resi-
dent has addressed the Government of
India on the subject, (copy enclosed for
information) and would beg to suggest, for the consideration of the Madras Govern-
ment, that, under all the circumstances of the case, it is quite useless sending up
the Engineer to Secunderabad, because the bakery cannot possibly be got ready
for him in time, even were there any funds available for so doing.

Enclosure one.

3. I am further to inform the Madras Government, that owing to the large
number of Military buildings required next year at Trimulgherry for accommodat-
ing the troops, no provision has been made for a bakery in the budget of this Pro-
vince for 1867-68, but should it be desired a special grant might be applied for and
the building commenced during the ensuing year.

From the Assistant Quarter Master General, Hyderabad Subsidiary Force, Secunderabad, 3rd
November 1866, No. 318; to the Chief Engineer, Bolarum.

I have the honor, by order, to forward herewith copy of letter No. and date as per margin,
from the Assistant Commissary General, request-
ing that the Brigadier General Commanding
Hyderabad Subsidiary Force will adopt measures

2482, dated 31st ultimo.

to expedite the erection of the bakery required to be built at Trimulgherry.

2. The Assistant Commissary General also brings to notice that the machinery required for
the bakery, and the Engineer who has been engaged to erect it, may shortly be expected here.

3. Under these circumstances, I am directed to state that the Brigadier General hopes the
Resident will be so good as to obtain the sanction of the Supreme Government for the building to
be commenced at once.

4. I am also to add that this is the first intimation the Brigadier General has received of
these arrangements connected with these bakery at this station.

From the Assistant Commissary General, Hyderabad Subsidiary Force, Secunderabad, 31st October
1866, No. 2482; to the Assistant Quarter Master General, Hyderabad Subsidiary Force,
Secunderabad.

With reference to the accompanying copy of telegram* from the Commissary General, I have
the honor to request that the Brigadier General
Commanding will adopt measures to expedite
the erection of the bakery emergently required
for this station.

*29th October 1866.

2. The machinery will be sent up shortly from Madras, and the Engineer who was sent out
from England on a salary of Rupees 360 per mensem, for putting up the machinery will, Colonel,
Loudon, Deputy Commissary General, informs me, have completed his work at Bangalore, and be
ready to come on here in about three months.

3. As the Engineer has only been engaged for nine months, it is very important that on his arrival here, the building should be sufficiently advanced for him to commence with the machinery, so that he may not be detained, and his work be completed before the period of his engagement expires.

Telegram from the Commissary General, Madras, 29th October 1866; to the Commissariat Officer, Secunderabad.

What is being done about the building for the bakery. The machinery will soon be sent up.

From the Secretary to the Resident at Hyderabad, Department Public Works, Bolarum, 13th November 1866, No. 283; to the Secretary to the Government of India, Public Works Department, Fort William.

Military.

Referring to my letter No. 9, dated the 8th May 1863, I have the honor, under instructions from the Resident, to submit, for the consideration and orders of the Government of India, the enclosed* correspondence regarding the erection of a steam bakery at Trimulgherry for the use of the European troops located there, the plan and estimate for which building were forwarded with my letter above quoted and have not yet been returned.

2. It will be seen that the Madras Government asked the Resident for a design of the bakery proposed to be built at Trimulgherry, and a copy of the one furnished to the Government of India was sent from this office in February 1865, which was approved by the Government of Madras, but as it was found impossible to provide for the bakery in any of the late budgets, owing to the great press of other and more emergent work, the subject has therefore been kept in abeyance. It now appears from the Assistant Quarter Master General's letter conveying the first intelligence of the bakery being immediately required, that all the necessary machinery, together with an Engineer, whose services were engaged in England, will be sent to Secunderabad "in about three months" time after completing his work at Bangalore, and that he has only six months more to serve in this country.

3. Under these circumstances, the Resident does not see that there would be any use whatever in the said Engineer coming here at present, for it is not possible, with all the work that is in hand, to get the building ready for placing the machinery in it within the next six months, even were it to be commenced at once, and it has been so represented, I am to state, in a letter just despatched to the Madras Government.

Transferred to the Military Department.

FORT SAINT GEORGE,
17th November 1866.

(Signed) C. A. ORR, Colonel, R. E.,
Secretary to Govt., P. W. D.

ORDER, No. 4152, 28th November 1866.

Ordered to be communicated to the Commissary General, who will refrain from dispatching the machinery for the bakery at Secunderabad till further notice.

2. Meanwhile, the Resident at Hyderabad will be requested to take steps for the erection of the bakery at Secunderabad, at as early a date as practicable, in view to the Machinery being brought into use—it being liable to deteriorate if left unemployed.

3. It is observed by paragraph 2 of Proceedings of Government, No. 4360, 7th December 1864, that Mr. Overseer Lee's services were then available to superintend the erecting of the Mills. The Inspector General of Ordnance will report whether his services can now be spared, and if so, it appears desirable that he should be placed in communication with Mr. Powney, the Mill-wright, and directed

to visit the Mills at Madras and Bangalore that he may fully acquaint himself with the process of setting up the machinery, &c., in view to his eventually superintending the work at Secunderabad, if required.

To the Resident at Hyderabad... Here enter, 28th November 1866, No. 4153.

(True Extract.)

Macmillan Colonel,
Deputy Secretary to Government.

To the Public Works Department, with three enclosures. 420 specimens.

- .. Commissary General.
- .. Inspector General of Ordnance.
