Public Works DEPARTMENT. ✓

G.O. No. <u>3882</u>	Press Mis.
<u>MB-124</u>	
Dated <u>8-12</u>	<u>18.66.</u>

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
8th December 1866.*

No. 123. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Berhampore, 24th November 1866, No. 185:—

Enclosures 3.

* Rupees 1,045.

1. I have the honor to forward plan, estimate, * &c., for a new bridge in the road from Aska to Russelcondah.

2. The stream over which it is to be constructed is now spanned by two small arches, which have been proved to be wholly insufficient to carry off the drainage of the country lying between the Rooshkoolia and Loharkundy rivers, near their confluence.

3. Owing to this the high embanked roads, which now completely cross the neck of land, impede the course of the drainage, which is at times increased by water from the Rooshkoolia either passing in by irrigation sluices, or, as in this year, by a breach, and the water lies in the Aska Factory longer than it would otherwise do.

4. I shall be able to provide funds from Minor New Works partly in this and partly in next year, if Government will be pleased to sanction the work.

No. 124. ORDER THEREON, 8th December 1866, No. 3,882.

CIVIL WORKS, No. 24.

The Government sanction the estimate of Rupees 1,045 for the construction of a bridge on the road from Aska to Russelcondah in the Ganjam District. They observe that the Superintending Engineer proposes to provide the funds from his allotment for Minor New Works.
(True Extract.)

Sir,

I have the honor to forward
Plan, estimate &c for a new bridge
in the road from Aska to Russelconda.
2. The stream over which it is to be
constructed is now spanned by 2 small
arches which have been proved to be
wholly insufficient to carry off the
drainage of the country lying between
the Rooshkoolia & Loharkundy rivers
near their confluence.

3. Owing to this the high embanked
roads, which now completely cross the
neck of land, impede the course of the
drainage, which is at times increased
by water from the Rooshkoolia, either
by water from the Rooshkoolia, either
passing in by irrigation sluices, or
as in this year by a breach, and the

the water lies in the Aska factory
longer than it would otherwise do.

4. I shall be able to provide funds
from minor new works partly in this,
and partly in next year if Govern-
ment will be pleased to sanction
the work.

I have &c &c

J. Moberly Lt Col R.E.
Asst Supt Engineer I.D.
