Proceedings of the Madras Government, Public Works Department, 11th December 1866.

No. 166. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Camp, Cuddapah, 1st December 1866, No. 2,631 :—

1. I have the honor to submit, for the consideration of Government, the accompanying two original letters from the Assistant Engineer in charge of the Military Buildings Range, Bellary, and beg sanction for an increased Office Establishment as therein requested.

Enclosures 3.

2. On receipt of Mr. Porter's letter, No. 121 of 19th July 1866, I wrote to the Deputy Assistant Quarter Master General, requesting him to send copies of letters instead of the originals themselves, on which very often he was in the habit of writing his original Memorandums, as this entailed on the Range Office the necessity of copying, and also at the same time pointed out to Mr. Porter how, in my opinion, some of his writing might be reduced.

3. After four months' further experience, Mr. Porter states that his establishment is inadequate for the work required, and so I would beg the sanction of Government to the extra hands applied for, and that their salary should be disbursed from the sum allotted for Petty Establishments in this Division.

No. 167. ORDER THEREON, 11th December 1866, No. 3,903.

ESTABLISHMENT, No. 13.

The Government regret their inability to recommend any increase to the present cost of the Range Establishments of this Presidency, but they will be prepared to give favorable consideration to any proposal which Major Moberly may submit for strengthening the Office Establishment attached to the Military Buildings Range of the Bellary District by reducing those employed in other Ranges of the 3rd Division.
