MADRAS RECORD OFFICE.**Government of Madras.***Public works* **DEPARTMENT.**

G.O. No. 3992	Press Mis.
360-361	
Dated 19 — 12 — 18 66.	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
19th December 1866.*

No. 360. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp, Kunchilly, 27th November 1866, No. 191 :—

1. I have the honor to forward survey, estimate, &c., for a channel to irrigate land in the village of Yendamur, which formerly received a supply by the dam-

Enclosures 6.

ming up of the Yalungy river, thus forming a bank to the injury of the upper land.
2. On representations made by the owners of this land, the Collector and Captain Ryves arranged for the immediate removal of the banks, promising the villagers a supply by other means.

3. In fulfilment of this, Mr. Sage has already expended Rupees 2,500 in anticipation of sanction, as the necessary surveys could not be immediately made; 2,000 acres, on a rough computation, have been already brought under cultivation of land that was formerly liable to flood, and very little of the Yendamur land has been deprived of its supply.

4. I enclose also an estimate for improving the drainage of the same tract, which is now in very bad condition, amounting to Rupees 4,100, and for a channel from Yanamadala to Bavaram, amounting to Rupees 750, to supplement the supply of the latter village.

5. All these works are connected with one another, as may be seen by the survey herewith forwarded. I beg that the Government will allow a transfer of Rupees 7,000, for their execution during the current year, from balance of the allotment for the Central Jail at Rajahmundry, on which, I am sure, that the grant cannot be laid out. I shall address Government separately on this latter subject hereafter.

No. 361. ORDER THEREON, 19th December 1866, No. 3,992.

CIVIL WORKS, No. 74.

1. The estimates, submitted with this letter, amounting in the aggregate to Rupees 8,450, are sanctioned from the

Reserve under "Agricultural," to which head a corresponding sum will be transferred from the Reserve under "Civil Buildings."

2. The Government are most unwilling to divert any portion of the grant for the Rajahmundry Central Jail, as it is of the utmost importance that that building should be completed as speedily as possible, and they hope that, bearing this in mind, the Superintending Engineer will still be able to make arrangements for the advantageous expenditure of the whole of the available funds.
