No. 433. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 17th December 1866, No. 3,725 :—

1. Adverting to the concluding part of paragraph 2 of Government Order No. 3,714, dated 21st November 1866, I have the honor to report that the necessary plans and estimates for improving the north or Tetry branch of the Cheyaur channel, in the North Arcot District, have been prepared; but the Executive Agent, Polur Range, does not now recommend the project except under the second anicut proposed by me to be constructed three miles above Trivatoor, as he thinks that there will not be sufficient water from the existing anicut to reach Tetry.

2. Under these circumstances I think it advisable to defer, for the present, completing the north branch of the Cheyaur channel works, the cost of which is estimated at Rupees 47,000.
