*Proceedings of the Madras Government, Public Works Department,
22nd December 1866.*

No. 543. Read the following :—
No. 467.

Application from the Agent and Manager of the Madras Railway, requesting the sanction of Government to the following estimate :—

NORTH-WEST LINE.		Schedule II.
Revised estimate of the cost of constructing a single needle and printing Telegraph between Cuddapah and Moodanoor, 35 miles	Rs.	38,459
Deduct—Sanctioned in G. O. dated 6th October 1866, No. 3,189		33,816
	Requiring sanction...	4,643
Revised estimate of the cost of constructing a single needle and printing Telegraph between Moodanoor and the river Chittravutty, 16 miles		19,458
Deduct—Sanctioned in G. O. dated 6th October 1866, No. 3,189		17,389
	Requiring sanction...	2,069

1. The revised estimates show that the number of galvanized iron poles between Cuddapah and Moodanoor, and Moodanoor and the river Chittravutty, have been increased from 560 to 595, and from 288 to 304, respectively. This, together with an allowance of 10 per cent. upon the cost of English stores, has involved an additional outlay of Rupees 4,643, and Rupees 2,069, as specified above.

2. The Agent and Manager was called upon for explanation with respect to the allowance of 10 per cent. for contingencies in the revised estimates, and I learn from his reply that although the actual quantity of posts, insulators, &c., can be easily estimated, numerous small stores, such as tents, mallets, pegs, stationery, wire for stays, &c., have to be provided, which it is impossible to enumerate correctly, and that it is considered necessary to provide for these by inserting in the estimates an item for contingencies.

3. I recommend that sanction be granted for the additional outlay of Rupees (6,712*) six thousand seven hundred and twelve.

* Rupees 4,643 and Rupees 2,069.

(Signed) H. N. D. PRENDERGAST, Major, V. C., R. E.,
Deputy Consulting Engineer for Railways.
