*Proceedings of the Madras Government, Public Works Department,  
15th February 1866.*

No. 316. Read the following letter from the Director of Public Instruction, to the Secretary to Government, Public Works Department, dated Madras, 10th February 1866, No. 273:—

1. Referring to the Memorandum of works for which estimates and plans are required to be submitted by the Superintending Engineers without delay, annexed to Proceedings of Government, Public Works Department, of 1st February 1866, I have the honor to request that the Superintending Engineers may be allowed to defer preparing plans and estimates for School-buildings, till they have been requested to furnish such plans and estimates by myself, or by the Inspectors of Schools acting on my behalf.

2. I have to remark that, in several cases for which provision is made in the Educational Building Budget, it will not be practicable, owing either to the non-realization of the required local subscription or to other causes, to commence the buildings at once; and in certain instances it may not be possible to have the buildings put in hand for a couple of years. It seems then unadvisable, with fluctuating rates, and with an imperfect knowledge of the total sum of money at disposal, to have plans and estimates prepared which may have to undergo very considerable modifications before they can be acted upon.

3. Hitherto plans and estimates have not been drawn up till called for by the Director of Public Instruction, and I have the honor to request that this course may be allowed to hold for the future.

No. 317. ORDER THEREON, 15th February 1866, No. 531.

CIVIL WORKS, No. 37.

Communicated to the Superintending Engineers for information and guidance.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

*Secretary to Government.*

To the Superintending Engineers.  
Director of Public Instruction.
