*Proceedings of the Madras Government, Public Works Department,
26th February 1866.*

No. 561. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Department Public Works, dated Madras, 20th February 1866, No. 3,243 :—

1 Statement.

In continuation of my letter to your address, printed with G. O. of the 6th January 1866, No. 52, I have the honor to forward, for the information of Government, a Statement exhibiting the actual expenditure by the disbursers of the Department up to the end of December last, and the computed expenditure for January. The accounts for this latter month not having been yet received into this Office, an approximation of the probable outlay has been made, compared with the credits issued by this Office for that month, and also with those of previous months and the cash balances remaining with the several disbursers. The general result arrived at by me is that about fifteen lacs of Rupees remain available for expenditure in the three last months of this official year, allowing the expenditure in January to be considerably more than that computed by this Office.

Expenditure up to 31st January 1866 on Works and Tools and Plant.

1. The Government are greatly disappointed with the results which are exhibited in the Statement submitted. They observe that out of an aggregate assignment of Rupees 45,81,630, only Rupees 27,96,716 were expended during the first nine months of the official year, or up to the 31st January 1866, the smallest outlay, as compared with the allotment, being in the Districts noted in the margin.

2. In the Order under date the 6th ultimo, No. 52, the special attention of the Superintending Engineers was called to the necessity for utilizing the whole of the funds which have been placed at their disposal, and they will now be informed that, unless they give timely intimation of their inability to lay out all the money at their command, the Government will not be disposed to pass unnoticed any case in which the local Officers fail, either through indifference or from want of foresight and proper management, to work fully up to their allotments.

The Controller of Public Works Accounts,
To. The Secretary to Government. D.P.W.
Sir,

In continuation of my letter to your
address printed with G.O. of the 6th January
1866. N^o. 52, I have the honor to forward
for the information of Government a
Statement exhibiting the actual expenditure
by the Disbursers of the Department up
to the end of December last and the
computed expenditure for January. The
accounts for this latter month not having
been yet received into this Office, an
approximation of the probable outlay
has been made, compared with the credits
issued by this Office for that month,
and also with those of previous months
and the cash balances remaining with
the several Disbursers. The general result
arrived at by me is that about 15 Lacs
of Rupees remain available for expenditure
in the 3 last months of this official year,
allowing the expenditure in January to
will be considerably more than that
computed by this Office.

I have the honor to be

Sir,

Your most obdt. servant,

The Government
are greatly disappointed
with the results which
are exhibited in the
statements submitted
with the letter above
recorded - They observe
that out of an aggregate
assignment of Rs 45,81,690,
only Rs 27,96,716 were expen-
ded during the first
nine months of the financial
year, or up to the 31st Jan'y
1866, the smallest outlay
as compared with the
allotment, being in the
districts noted in the

margin -

2. In the order under date the 6th ultimo, no 52, the special attention of the Supg Engineers was called to the necessity for utilizing the whole of the funds which have been placed at their disposal, and they will now be informed ^{unless they give timely intimation of their inability to lay out all the money at their command} that the Government will not be disposed to pass unnoted any case in which the local officers fail, either thro' indifference or from want of foresight and proper management, to work fully up to their allotments.

3. All sums which in the opinion of the Supg Engineers, cannot be expended by the 30th April next, should be surrendered in the statements of savings etc which will have to be laid before Govt on the 1st proximo.
