*Proceedings of the Madras Government, Public Works Department,
2nd March 1866.*

No. 50. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Manantoddy, 19th February 1866 :—

1. When in Wynad last November I had occasion to observe the entire want of accommodation for Taluq Overscers and their Offices, and the evil effects, moral and physical, proceeding therefrom. And there being funds available under the heads of "Minor New Work" "Communications," I called on the Range Officers for plans and estimates of puckah buildings not to cost more than Rupees 500, which in these localities does not represent above half the same sum that it does in average Ranges elsewhere.

2. I now forward a plan and estimate received from Mr. Nordmann, of which I approve, and in accordance with which I have directed him to carry out the work, so that no time may be lost in securing some accommodation for his Executive subordinates before the rains.

No. 51. ORDER THEREON, 2nd March 1866, No. 720.

CIVIL WORKS, No. 8.

1. Under the circumstances which are explained in the letter above recorded, the Governor in Council sanctions the estimate, amounting to Rupees 500, for the construction of a shed for the accommodation of the Taluq Overseer at Manantoddy, in the North Wynad Range of the Malabar District.

2. Funds for the execution of the work will be provided by the transfer of a sum of Rupees 484 from the allotment for Minor New Works under "Communications" to that under "Civil Buildings" in the Malabar District. Colonel Walker will report from what source the balance of the estimate can be met.

3. The Superintending Engineer's proceedings which are reported in paragraph 2 are approved.
