G.O. No. 741	Press Mis.
93-94	
Dated 6-3.	1866.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
6th March 1866.*

No. 93. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Department Public Works, dated Arnee, 23rd February 1866, No. 4,253 :—

1 Estimate (Abstract). 1. I have the honor to forward herewith, for the sanction of Government, an estimate of Rupees 692 for "clearing the Yellagoonta spring channel of Thandavadu village, Chendragherry Taluq, Chendragherry Range, North Arcot District."

2. The Executive Agent reports, that at the solicitation of the villagers of Thandavadu he inspected the above channel on the 27th October 1865, and observing that a failure of the crops was likely to occur owing to the scanty supply going down the channel, in consequence of its silted up state, he made arrangement for carrying out the work on emergency. I approved of this proceeding, and the work is now very nearly completed; but there are only 16 acres of land cultivated under this channel, yielding an average revenue during the last five years of Rupees 101. The highest revenue during the above period is 121 Rupees, and an increase of Rupees 42 is expected.

3. The Collector has approved of the estimate, and I beg to recommend it for sanction from the Agricultural repair funds of the North Arcot District.

No. 94. ORDER THEREON, 6th March 1866, No. 741.

CIVIL WORKS, No. 13.

1. Under the explanation which is afforded by the Superintending Engineer of the 4th Division, His Excellency the Governor in Council sanctions the estimate, amounting to Rupees 692, for clearing the Yellagoonta spring channel of the Thandavadu village in the North Arcot District.

2. The expenditure on the work will be charged against the Agricultural repair allotment, as proposed in paragraph 3 of the letter above recorded.

B. S. H.

Sir,

I have the honor to forward herewith for the sanction of Government an estimate of Rupees 692 for "Clearing the Yellaigoonta Spring Channel of Thandavadu Village, Chendragherry Taluk, Chendragherry Range, North Arcot District."

2. The Executive Agent reported that, at the solicitation of the villagers of Thandavadu he inspected the above channel on the 27th Octo/88, and observing, that a failure of the crops was likely to occur owing to the scanty supply going down the Channel in consequence of its silted up state, he made arrangements for carrying out the work on emergency. I approved of this proceeding, and the work is now very nearly completed; but there are only 16 acres of land cultivated under this Channel, yielding an average revenue during the last five years of Rs 101. The highest revenue during the above period is 121 Rs, and an increase of Rs 42 is expected.

3. The Collector has approved of the estimate, & I beg to recommend it for sanction from the Agricultural repair funds of the North Arcot District.
