Public Works DEPARTMENT.

G.O. No. 753 Press
117—118 ~~Mis.~~

Dated 6 — 3 — 1866.

Not to be folded or roughly handled

No. 117. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Department Public Works, dated Camp, Arnee, 23rd February 1866, No. 4,277 :—

1. With reference to the Orders of Government, No. 2,219, dated 3rd August 1865, I have the honor to submit an estimate, Rupees 22,440, for erecting two blocks of servants' quarters in the neighbourhood of the General Hospital, the one for the servants employed in the Military side, the other for those employed in the Civil side of that institution.

1 Standard Plan.
1 Estimate.
1 Letter (and enclosure) from Inspector General, Medical Department.
1 Letter from Sanitary Commission.

The Standard plan has been adhered to.

2. The Inspector General Medical Department seems quite to concur in the advisableness of constructing these dwelling houses for the Hospital attendants, but he "strongly objects to their being erected within the immediate precincts of the Hospital," and suggests that they "might suitably be built on the banks of the canal opposite the People's Park, though" he adds, "it is doubtful if vacant space exists for the purpose."

3. The Sanitary Commission, however, are of opinion "that no immediate necessity exists for making any provision of the nature now suggested, as the Native servants already reside in close proximity to the Hospital," and "no inconvenience has ever been experienced by any of the Medical Officers connected with the institution from there being no fixed public quarters for its servants."

4. Should Government, under this explanation, still consider it desirable that the servants' dwelling houses should be erected, I have to request that a grant from the Reserve 1866-67 to the amount of Rupees 22,440 may be made for the purpose.

No. 118. ORDER THEREON, 6th March 1866, No. 753.

MILITARY WORKS, No. 6.

As the only space available within the General Hospital grounds for the erection of the proposed quarters for the Native servants attached to the establishment is on the edge of the canal, which is to windward, and therefore objectionable, and as no difficulty appears to be experienced by the Hospital servants in providing themselves with accommodation in the neighbourhood, His Excellency the Governor in Council concurs in opinion with the Sanitary Commission that there is no necessity for the erection of public quarters.

From the Supdg Engineer
of the 4th Div.
Submitting an Estimate
Rupees 22440 for erecting 2
Blocks of Servants Quarters
in the Neighbourhood of the
General Hospital.

Fort St George
the 23rd Feby 1866

Sir

I have the honor to forward herewith an Estimate for the erection of two blocks of Servants Quarters in the neighbourhood of the General Hospital.

As the only place available within the Fort for the General Hospital grounds for the erection of the proposed quarters for the native Servants attached to the establishment is on the edge of the Canal, which is to windward and therefore objectionable, and as no difficulty appears to be apprehended by the Hospital Servants in providing themselves with accommodation in the neighbourhood, His Excellency the Governor in Council
