Government of Madras.

Public Works DEPARTMENT.

G.O. No. 760	Press Mis.
131-133	
Dated 7 — 3.	18 66.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department.
7th March 1866.

Read the following letters:—

No. 131. From the Superintending Engineer, 1st Division, to the Secretary to Government, Department Public Works, dated Camp, Dowlaishweram, 21st February 1866, No. 2,639.

1. The Deputy Inspector of Police, when making arrangements for the construction of the Barrack* in the Sowrah Maliahs, decided, in communication with the Governor's Agent, that Wodasaul would be a better position than Puttasin-ghi: and, seeing the impossibility of completing the Barrack, according to the sanctioned design, before the setting in of the rains, proposes a plan which he hopes may be carried out in time to give shelter to the men.

1 Plan.
 1 Estimate
 1 Original letter from Deputy Inspector General of Police

* Sanctioned G. O. No. 3,804, dated 19th December 1865

2. The Inspector General of Police has approved of Captain Bowen's plan, and the barrack is now being erected at Wodasaul according to it.

3. A plan and estimate of the work, signed by the Inspector General of Police, are herewith submitted for sanction.

4. The Deputy Inspector General does not state the number of men to be housed in this barrack: the space provided *inside the rooms* appears to be sufficient for about twenty men in them at the same time. I would allow another door-way in each of the three 40-foot rooms, and a window in each of the end-walls, which besides improving the ventilation (which I fear will be found to be badly provided for) will enable the police inside to command the dead spaces at the angles. There is no lock-up for prisoners, but this must have been purposely omitted. The additional doors and windows have been marked on the plan, and their cost added into the estimate.

5. The estimated cost of the barrack,† as sanctioned by Government, is Rupees 4,760, the estimate now submitted for this smaller‡ barrack is Rupees 2,250. About half the iron for roofing will be used, and Captain Bowen proposes to appropriate the remainder of the money and iron for another similar barrack in the same part of the hill tracts.

No. 132. From the the Inspector General of Police, to the Secretary to Government, Public Works Department, dated Madras, 28th February 1866, No. 334:—

1. The funds for the Puttasin-ghi Barracks have been placed at the Ganjam District by G. O. dated 12th February 1866, No. 516.
2. The alteration of site, &c., has thrown this work on the Superintendent of Police, Vizagapatam. The work is in hand, and funds are urgently needed in Vizagapatam.
3. I beg that the Order of Government sanctioning the construction of the Barracks at Puttasin-ghi by Department Public Works be cancelled, and that 2,000 Rupees may be re-transferred to Vizagapatam, and placed at the disposal of the Superintendent of Police.
4. It is impossible to estimate the exact cost at present.

Proceedings of the Madras Government, Public Works Department,
7th March 1866.

No. 133.

ORDER THEREON, 7th March 1866, No. 760.

CIVIL WORKS, No. 18.

1. The Government having, in their Proceedings in the Judicial Department, No. 220, dated 13th February 1866, approved of the selection of Wodasaul, instead of Puttasinghi, as the site for the Police Station which was to have been established at the latter place, the Governor in Council sanctions the estimate, amounting to Rupees 2,460,* for the construction of a Barrack at Wodasaul for the use of the Police force.
2. The estimate of Rupees 4,760 for the erection of a Barrack at Puttasinghi, which was sanctioned in the Order of the 19th December last, No. 3,804, will be considered cancelled.
3. Adverting to the second of the letters above recorded, the Governor in Council authorizes the transfer, from the Ganjam to the Vizagapatam District, of a sum of Rs. 2,460 from the allotment† for the Barrack at Puttasinghi. This amount will be available for appropriation to the Barrack at Wodasaul, and the balance remaining in the hands of the Executive Engineer in Ganjam will be transferred to the District Police Officer for expenditure, under his direction, on the Maliahs.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

 Plan-
 Estimate.
 Original letter
 on Dy. Insp. Off-
 21st Feb.

Times, P. O.
 24 dated
 December 1865.

Sir,
 The Deputy Inspector of Police,
 when making arrangements for the
 construction of the Barrack in the Town
 Malabar decided in communication
 with the Governor Agent that Wodasul
 would be a better position than Putta-
 virghy: and, seeing the impossibility
 of completing the Barrack according
 to the sanctioned design before the setting
 in of the Rains, proposes a plan which
 he hopes may be carried out in time
 to give shelter to the men.

2. The Inspector General of Police
 has approved of Captain Bowen's plan
 and the barrack is now being erected
 at Wodasul according to it.

Enclosure in letter
 No 2639 of 21st February 1866
 from the Superintending
 Engineer R. E. Division
 to the Secretary Agent
 Mr. Dorr
 Estimate of Building
 a Barrack at
 Wodasul

3. A plan and Estimate of the work signed by the Inspector General of Police are herewith submitted for sanction.

4. The Dy Inspector General does not state the number of men to be housed in this barrack: The space provided inside the rooms appears to be sufficient for about 20 men in them at the same time. I would allow another doorway in each of the three 40 ft. rooms and a window in each of the end-walls, which besides improving the ventilation (which I fear will be found to be badly provided for) will enable the police inside to command the dead spaces at the angles. There is no Lockup for prisoners, but this must have been purposely omitted. The additional doors and windows have been marked on the plan and their cost added into the Estimate.

5. The estimated cost of the barrack as sanctioned by Government is Rupees 4,760. The Estimate now submitted for this smaller barrack is

1300 Sq Feet - 11250 Cubic Ft. - May 25 1887
© 1887 - 24840 - 40 -

115
is Rupees 2,250 - about half the iron for roofing will be used; and Capt Bowen ^{will} appropriate the remainder of the money and iron for another similar barrack in the same park in the Bill tract.

I have the honor to be,
Sir,
Your most obedient servant
