Proceedings of the Madras Government, Public Works Department.
14th March 1866.

No. 312. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Koradachary, 2nd March 1866, No. 1,922 :—

1. As directed in G. O. No. 1,708, dated 20th June 1865, I have the honor to forward the Statements of Savings and additional demands in connection with the works in progress in the 6th Division, from the allotment of funds in 1865-66.

2. An additional abstract Statement is enclosed, from which you will observe that under the head "Military" a sum of Rupees 3,347-8-9 is not required, and under Local Funds Rupees 19,635 will not be expended, the former consists chiefly of savings on completed works, and the latter is due to the fact that in Trichinopoly the new roads provided for could not be commenced on the receipt of the

Local Fund Budget late in June, owing to water in the channels and the land being under cultivation; and in Tanjore the estimate for the Road, for which

Rupees 9,000 was provided, amounted to Rupees 26,000, and as there was no prospect of such a sum being passed for about four miles of road and owing to press of work, the estimate has not been examined in this Office.

3. The savings effected in the Trichinopoly and Tanjore Districts on New Works and Repairs, other than Military, will just cover the outlay in excess of the allotment required for the Lower Anicut Works.

4. The grant of Rupees 5,000 for Educational Buildings is included in the sum to be transferred to the Lower Anicut. Should this be inadmissible, Rs. 5,000 from another Division will be required.

5. Owing to the death of Mr. Maitland, and the changes consequent thereupon, it will not be possible to expend any extra sum on the canal from Negapatam to Vedaranium within the current official year.

No. 313. ORDER THEREON, 14th March 1866, No. 848.

ACCOUNT, No. 36.

1. With the letter above recorded, the Superintending Engineer of the 6th Division submits Statements showing the New Works and Repairs, the allotments for which are not likely to be expended by the 30th April next, and those for which additional funds are now required.

2. The amount which is available for transfer in the Tanjore and Trichinopoly Districts is Rupees 18,895, as shown below :—

5. Captain Oakes' attention will be drawn to the following remarks :—

STATEMENT No. I.

Alotment...	Rs. A. P.	Tanjore.—The allotment for Minor New Works under "Agricultural" is entered at Rupees 6,877-7-7. The correct amount is Rupees 5,802-7-7, as shown in the margin. As the probable expenditure under this head up to 30th April 1866 is calculated at 75 Rupees in excess of the available funds, no money can be diverted from that source.
Deduct amount transferred in G. O. No. 2,467, dated 24th August 1865 ...	7,000 0 0	
Do. in G. O. No. 573, dated 17th February 1866 ...	Rs. A. P. 122 8 5	
	1,075 0 0	
Balance...	1,197 8 5	
	5,802 7 7	

STATEMENT No. II.

The current year's allotment under the head "Civil Buildings" in the Tanjore and Trichinopoly Districts is given at Rupees 21,301 and 3,202 respectively, but the Superintending Engineer has omitted to deduct the sums (Rupees 260 and 143) which were transferred in G. O. No. 3,657, dated 2nd December 1865. The actual amount which is available for transfer in each District is shown in the margin.

STATEMENT No. III.

Re-building the fallen portion of the Lower Coleroon Anicut and adding aprons. For this work a sum of Rupees 20,951 in addition to the funds already allotted are shown to be required during the current year. In part of this demand, Rupees 14,931 are placed at the Superintending Engineer's disposal in these Proceedings, and every effort will be made to allot the balance from savings in other Divisions.

6. The grants which are required for the works noted in the margin, being very trifling, have been excluded from the present distribution. The expenditure that may be incurred upon them will doubtless be counter-balanced by small savings on other works, such as the "ridge ventilator to the roof of the Canteen of the detachment of the 105th Regiment at Trichinopoly," upon which Rupees 3-14-11 remain unappropriated.

7. Under paragraph 90, Section II. of the Manual, it is unnecessary to allot funds for the adjustment of the excesses over the appropriations to the undermentioned works :—

Constructing a Wash-house and Urinal for the Artillery at Trichinopoly.
Alterations to the old abandoned Jail to convert it into a Lunatic Asylum.

8. Under these orders, the sum available from the head "Military," for transfer to other Districts, is Rs. 3,461, as shown in the margin.

9. The savings on the 2nd, 3rd, and 6th items will be transferred to the Coimbatore and Malabar Districts, in separate Proceedings, and those on the other works, amounting in the aggregate to Rupees 317, will be re-credited to the Reserve under "Military."

10. As Local Funds do not lapse at the close of the year, the allotments from that source should have been excluded from the present Returns.

Latter is due to the fact that in Trichinopoly
the New Roads provided for could not
be commenced on the receipt of the
Local Fund Budget late in June owing
to water in the channels and the lands
being under cultivation, and in
Tanjore the Estimate for the Road
for which Rs 9000 was provided
amounted to Rs 26000 and as there

---------	--	------

In anticipation of the sanction
of the Govt. of India the transfers of funds
noted below are authorized.

New Works

Do	Rebuilding the fallen portion of the Lower Coleroon Ancient and adding Aprons. Revised Estimate under preparation Budget Item No. 74	11,504
----	--	--------

Captain Pake's attention
will be drawn to the following
remarks.

Statement No 1

Saujore - The allotment for
Minor new Works ^{under} "Agricultural"
is entered at Rupees 6877-7-7.
The correct amount is Rupees
5822-7-7, as shown in the
margin, as the probable ex-
penditure under this head
upto 30th April 1866 is cal-
culated at 75 Rupees in
excess of the available funds.
No money can be diverted from
that source.

Statement No II

The Current year's allot-
ment under the head "Civilians
Buildings" in the Saujore
and

Alotment ————— 7000
Deduct amount transferred
in G.O. No. 2467 of 24th August 1865 — 122-8-5

Tuchinopoly — 1,689.

and Tuchinopoly Districts
is given at Rupees 21301 and
3202 respectively, but the
Superintending Engineer has
omitted to deduct the sums
(Rupees 260 and 143) which were
transferred in G.O. No. 3657,
dated 2^d December 1865. The
actual amount which is
available for transfer in
each District is shown
in the margin.

Statement No III

Rebuilding the fallen
portion of the Lower Coleroon
ancient and adding aprons.
For this work a sum of
Rupees 20951 in addition to
the

the funds already allotted
are shown to be required
during the current year.
In part of this demand,
Papies 14,931 are placed at
the Superintending Engineer's
disposal in these Proceedings.
And every effort will be
made to allot the balance
from savings in other
Divisions.

The grants which are
required for the works noted
in the margin being very trifling,
have been excluded from the
present distribution. The
expenditure that may be
^{upon them} incurred will doubtless be
counter-balanced by small
savings

savings on other works, such
as the Ridge ventilator to
the roof of the Canteen of
the detachment of the 105th
Regiment at Trichinopoly,
upon which Papies 3-14-11
remain unappropriated.

Under para 90, Section
II of the Manual, it is
unnecessary to allot funds
for the adjustment of the
excesses over the appropria-
tions to the undermentioned
works

Constructing a Wash
House and Urinal for the
Artillery at Trichinopoly.

The savings on the 2^d, 3^d and 6th items will be
transferred to the ^{in preparation} Comptroler District in de-
parate Proceedings and those on the other
works amounting in the aggregate to Rs. 317,
will be recredited to the Reserve under
Military.

As Local funds do not lapse
at the close of the year, the allotments
from that source should have been
included from the present Returns.
