MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

G.O. No. 900	Press
420-421	Mis.
Dated 20-3-	1866.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
20th March 1866.*

No. 420. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 18th December 1865, No. 3,251:—

1 Plan.
G. O. No. 2,359, 14th August 1865.
Memorandum No. 175, 11th September „
Do. „ 211, 30th October „
Do. „ 247, 13th December „

1. With reference to the Orders of Government (as per margin) I have the honor to submit a plan of stabling for horses on the principles laid down in the Standard Plan, circulated with G. O. No. 648, dated 8th March 1865.

2. Since the plan was countersigned by the Officer Commanding the Artillery in the Centre Division, I have added the outer verandah, which is intended as a further protection to the horses against during rain, and also as cover for the Horse-keepers, &c.

No. 421. ORDER THEREON, 20th March 1866, No. 900.

MILITARY WORKS, No. 20.

No. 398, dated 1st February 1866.

1. A copy of the plan of stabling which was approved of in the Proceedings of Government marginally noted, and which will now be considered as a standard, will be forwarded to the

Superintending Engineer of the 4th Division and to all other Superintending Engineers for information and guidance.

2. Colonel Boileau is requested to prepare and submit an estimate upon the plan now furnished to him for the provision of stables for the horses of the Royal Artillery at Saint Thomas's Mount.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 4th Division,
To all other Superintending Engineers,
To the Military Department,

With G. O. No. 398, dated
1st February 1866, and copy of plan.

Proceedings of the Madras Government, Public Works Department,
1st February 1866.

No. 24. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Tanjore, 12th December 1865, No. 1,567:—

1. I have the honor to acknowledge the receipt of G. O. No. 3,723, dated 8th

1 Plan.

1 Estimate.

No. 3,744.

instant, and to observe that the revised section of a stable forwarded therewith

is almost a *fac simile* of the Standard

Plan furnished in December 1863; only

the distance between the pillars has to be reduced from 10½ to 10 feet, this reduces the length of the stable for 56 horses by 14 feet, and the necessary alteration has been made in the estimate which, as I have already informed you, has received the approval of the Commander-in-Chief for entry in the Budget of 1866-67. A ridge ventilator has been added, and the amount of the estimate has been raised from Rupees 16,800 to Rupees 17,500.

2. If I may give an opinion on the subject, I would observe that a stable

according to the Standard Plan dated

No. 648.

27th March 1865, with an opening of 10

feet instead of 6 feet between the pillars

would afford the accommodation required for each horse, viz., 14 X 10 feet, without the inconvenience of a pillar nearly in the middle of the side of the stall as in the plan now submitted, and the horses' head ropes being attached to rings in the centre pillars, the horses would probably stand more forward in their stalls or nearer the centre of the stable, and would have their quarters less exposed to wind and rain than if the stables are built according to the enclosed plan, and if owing to the alterations I have now made under G. O. No. 3,723, it is necessary to re-submit the stables to the Commander-in-Chief, I think it is very probable that the

modification of the Standard Plan pro-

posed above will be approved, and it will

March 1865.

be necessary to prepare a fourth estimate for the horses of the Artillery Battery at Trichinopoly.

No. 25. ORDER THEREON, 1st February 1866, No. 398.

MILITARY WORKS, No. 4.

The Government approve of the revised plan of stabling which is submitted with the letter above recorded,

but looking to the heavy cost (Rupees 17,500) of the building, and to the probability of a change in the strength of the Artillery stationed at Trichinopoly being made, it will be considered in the Military Department whether it is advisable to incur so large an outlay.
