**Proceedings of the Madras Government, Public Works Department,
24th March 1866.**

No. 556. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Cuddalore, 10th March 1866, No. 102 :—

1. I have the honor to report that the maintenance allowance (Rupees 1,200) of the Ahtoor Ghát has been expended, and if an additional sum of Rupees (500) five hundred can be granted, work can be carried on to advantage, as labor is easily procurable at Yerkad at present.

2. The Assistant Engineer in charge of the Range states, that all the work done up to this time has been in the two miles between Taylor's Saddle and Pachapady, and that he cannot get coolies to work lower down the ghát, until a shed which is now being built near Pachapady has been completed. The work done consists principally in blasting and removing rocks and building revetments.

3. The additional sum applied for can be obtained by a transfer from the allotment for Repairs Agricultural in the Salem District.

No. 557. ORDER THEREON, 24th March 1866, No. 961.

ACCOUNT, No. 67.

The transfer of funds which is proposed by the Superintending Engineer of the 5th Division, in order to provide additional money for the maintenance of the Ahtoor Ghát in the Salem District, is sanctioned.

(True Extract.)

Superintg. Engineer 5th Div

To
Colonel C. S. Orr C.E.
Secretary to Government M.L.W.

Sir,
I have the honor to report that the
maintenance allowance (Rupees 1200) of the Athor
Ghat has been expended, and if an
additional sum of Rupees (500) five hundred
can be granted, work can be carried on
to advantage, as labor is easily procurable
at Yerghad at present.

2. The Assistant Engineer in
charge of the Range states that all the
work done up to this time, has been in the
two miles between Taylor's Saddle and
Pachapady, and that he cannot get coaches
to work lower down the ghaut, until a
shed which is now being built near
Pachapady has been completed. The work
done consists principally in blasting and
removing rocks and building re-
-vetments.

3. The additional sum applied
for can be obtained by a transfer
from the allotment for Repairs
