Proceedings of the Madras Government, Public Works Department.
17th May 1866.

No. 440. Read the following Endorsement of the Consulting Engineer for Irrigation and Canal Company, dated Madras, 3rd May 1866, No. 2:—
Read the following letter from W. J. LOWE, Esq, Executive Engineer, to the Agent and Manager, Madras Irrigation and Canal Company, dated Kurnool, 21st April 1866, No. 439.

1. Your No. 1,270 of 9th instant. I have the honor to inform you that I cannot find any records showing the amount of stores stolen from the yard; in fact it is well nigh impossible to arrive at any thing like a correct conclusion with regard to a negative proposition of this nature.

2. I enclose, however, a Memorandum of the Store-keeper, showing three items, of which there is very little doubt.

MEMORANDUM.			RS.	A.	P.
Steel, octagon, of sizes, lbs. 88½, at Rupee 0-8-9 per lb. ...	...	...	483	11	5
Do square do. ,, 76 at ,, 0-6-9 ,, ...	...	...	33	1	1
The two above items were found deficient in May 1865, at stock-taking, but when stolen is not known.					
Copper scissel, lbs. 332½, at Rupee 0-15-9 per lb. ...	...	...	327	8	9
Total ..			844	5	2

The copper scissel is supposed to have been stolen about March 1865.

Until Mr. Vardon came, the steel was kept in the yard. It is now under lock and key in the Store-room.

Executive Engineer.

No. 700.

Communicated to the Consulting Engineer with reference to paragraph 4 of the Order of Government No. 968, of 26th March 1866.

(Signed) F. H. HENSLOWE,
Agent and Manager.

MADRAS,
26th April 1866.

1. Forwarded for the information of Government, with reference to paragraph 4 of their Order, No. 968, of the 26th March last.

2. It is shown that there is very little doubt that stores of the value of Rupees 844-5-2 have been stolen at Kurnool, but as it is mentioned that no record of losses can be found, it is clear that the information now given must be considered very imperfect.

3. Probably the Executive Engineer refers, when expressing his opinion of the impossibility of ascertaining what is not in the Stores, to the fact that none but very imperfect records have been kept either of the receipts or issues of stores. The part of the deficiency, at the last stock-taking, which is considered to require further explanation, is Rupees 15,490.

Consulting Engineer for I. and C. Company.
