Proceedings of the Madras Government, Public Works Department.

21st May 1866.

No. 515. Read the following Endorsement of the Acting Consulting Engineer for Railways, dated Madras, 9th May 1866, No. 209 :—

Read the following letter from the Agent Great Southern of India Railway, to the Consulting Engineer for Railways, dated Negapatam, 5th May 1866, No. 2,028.

I attach hereto copy of a report from the Chief Engineer's Office, relative to an accident which occurred on the 3rd instant, upon the Erode Extension. The usual Tabular Statement shall follow.

From the Officer in charge of Chief Engineer's Office, to the Agent and Manager, dated Trichinopoly, 4th May 1866.

1. I beg to report a serious accident which occurred on the 4th mile yesterday morning. Two wagons were being pushed by hand from the Brickfield near Kudumurti bridge to the Fort station, when one of the Coolies, who was at the time running alongside the truck holding on to the front buffer, fell across the rail and was run over. The Cooly was at once taken to the Civil Dispensary, but died in about an hour after.

2. The deceased was a Cooly for some time employed in pushing trucks, and was fully instructed and cautioned as to the manner in which the work was to be done; in fact he subscribed his name as having read and understood a set of written instructions sent out for the guidance of all those who are employed in pushing trucks.

3. In the present instance the unfortunate occurrence appears purely accidental, and no rules have been infringed.

4. The Police were duly advised of the accident.

5. As soon as I have received the usual Tabular Return of the accident from the Engineer, it shall be sent forward.

Submitted for the information of Government.
