Proceedings of the Madras Government, Public Works Department, 15th January 1866.

No. 360. Read the following letter from the Executive Engineer, in charge of Kurnool Range, to the Collector of Kurnool, dated Kurnool, 20th December 1865, No. 326:—

1. Bundivempolliem Surveyreddypally tank.
2. Sivapoorem tank.
3. Goovalacoonta tank.
4. Yelgode Ramasamoodrem tank.
5. Cothapully tank.
6. Moosalimudgoo tank.
7. Cooroocoonda tank.
8. Chinna Mallamma tank.
9. Pedda do. do.
10. Judraswerem do.
11. Pedda Anantapoorem tank.
12. Yelgode tank.

1. I have the honor to inform you that during my tour in the Nundicotcoor Táluq this month I inspected the tanks noted in the margin, and found most of them in a ruinous state; some of them have no calingulahs, and the sluices of almost all the tanks are in ruins. Several were breached during the last monsoon, and repaired by the Ryots: one breach must have cost the Ryots at least 150 Rupees to repair.

2. Estimates amounting to Rupees 7,000 for repairing some of the tanks were forwarded last year, but sanction was received for only trifling repairs amounting to Rupees 368.

3. I propose sending in estimates as soon possible to put all these tanks in repair, which I do not think can be done under 20,000 or 25,000 Rupees. These repairs ought to be commenced at once as the tanks are not safe in their present state.
