MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

G.O. No. 232	Press Mis.
481-482	
Dated 20 - 1	1866.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
20th January 1866.*

No. 481. Read the following letter from the Consulting Engineer for Irrigation and Canal Company, to the Secretary to Government, Department Public Works, dated Madras, 9th January 1866, No. 139 :—

1. In acknowledging the receipt of the Order of Government No. 38, of the 5th instant, I have the honor to report that, as mentioned in paragraphs 10 and 11 of my letter No. 138 of the 8th instant, the Luckhowulli Reservoir site is, on the whole, one of the most favorable sites as yet found; and as reservoirs are essential to the full success of the Company's project, whether the whole scheme be considered, or only the part already commenced, it appears to me that it is extremely probable that the Directors of the Company will order a complete investigation of the Luckhowulli Reservoir project, and that should this examination give as favorable results as the preliminary investigation would lead me to expect, the plans will be submitted for the approval of Government.

2. I may add that even the limited period of one year, referred to in paragraph 2 of the letter from the Commissioner of Mysore, No. 5,420-40 of the Procs. Madras Govt., 4th May 1865, No. 1,210. 24th April last, has not nearly expired, and as teak plantations would yield no returns for several years, it would seem to be advisable that, for the present, the planting out of trees within the area shown on the sketch map forwarded to the Commissioner in July last, should be avoided. Procs. Madras Govt., No. 2,078, 19th July.

3. I have written to the Agent, to request that he will lose no time in ascertaining whether the Board of Directors contemplate bringing forward for sanction the formation of a Reservoir at Luckhowulli.

No. 482. ORDER THEREON, 20th January 1866, No. 232.

CIVIL WORKS, No. 83.

Under the circumstances explained in the foregoing letter, the Mysore Government will be informed that the Madras Government concur in opinion with the Consulting Engineer for the Madras Irrigation and Canal Company, that the prohibition of any extension of teak plantations in the immediate neighbourhood of the site of the proposed Luckhowulli Reservoir in the Nugur Division should for the present be continued.

Ordered that the following letter be sent :—

(Here enter No. 233, dated 20th January 1866.)

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

PUBLIC WORKS DEPARTMENT.
FORT SAINT GEORGE,
20th January 1866.

No. 483.

No. 233.

To

THE COMMISSIONER FOR THE GOVERNMENT OF THE TERRITORIES
OF HIS HIGHNESS THE RAJAH OF MYSORE.

SIR,

CIVIL WORKS, No. 84.

In reply to your letter No. 4,154-37,
dated 16th December 1865, I am
directed to forward a copy of a report

from the Consulting Engineer for the Madras Irrigation and Canal Company on
the subject of the proposed construction of a Reservoir at Luckhowulli in the
Nagar Division, and to state that the Government concur in opinion with that
Officer that, for the reasons explained by him, the prohibition of any extension of
teak plantations in the immediate neighbourhood of the site should for the present
be continued.

I have the honor to be,

Sir,

Your most obedient servant,

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

N^o 139

Consulting Engineer's Office,
Irrigation and Canal Company,
Madras 9 January 1886.

From,

Captain John Mullins M.E.
Consulting Engineer & C.E.

To,

Colonel C. A. Orr M.E.
Secretary to Government (D.P.W.)

Sir,

20/10/86.
In acknowledging the receipt of
the Order of Government N^o 38 of the 5th
Instant, I have the honor to report that,
as mentioned in para^s 10 & 11 of my letter
N^o 138 of the 8th instant, the Luckawully
Reservoir site is, on the whole, one of
the most favorable sites as yet found,
and as reservoirs are essential to the
full success of the Company's project,
whether the whole scheme be considered
or only the part already commenced,
it appears to me that it is extremely
probable that the Directors of the
Company will order a complete
investigation of the Luckawully Reservoir
project, and that should this exami-
nation give as favorable results as the
preliminary investigation would
lead me to expect, the plans will be
submitted for the approval of
Government.

2 I may add that were the limited
period

period of one year, referred to in para 2
of the letter from the Commissioners
of Mysore No 5420-40 of the 24th April last, P.M. 1. 4 May 1865
has not nearly expired, and as teak
plantations would yield no returns
for several years, it would seem to be
advisable that, for the present, the plant-
ing out of trees within the area shown
on the sketch map forwarded to the
Commissioners in July last, should
be avoided. P.M. 1. 6 N: 2078-19th July

3. I have written to the Agent
to request that he will lose no time
in ascertaining whether the Board
of Directors contemplate bringing
forward for sanction the formation
of a Reservoir at Luckanully.

I have the honor to be,

Sir,

Your most obedient servant,
Colonel Mullins Captain R.E.
Consulting Engineer I.C.B.
