No. 569. Read the following Endorsement of the Superintending Engineer, 7th Division, dated Coonoor, 4th January 1866:—

Read the following letter from the Executive Engineer, Neilgherry Range, to the Superintending Engineer, 7th Division, dated Ootacamund, 2nd January 1866, No. 225.

1 Having found the work of driving and firing the 10-H. P. Steam Engine attached to the Brick-making Machine lately set up on these works to be very heavy and requiring actually more physical strength than is possessed by the lads attached as Apprentices to this Range, I applied to the Officer Commanding H.M.'s 105th Regiment at Wellington for the services of Private W. Harlow, Regimental No. 325, of the Regiment under his command, who is by trade an Engine Driver and Fireman, which that Officer kindly granted by giving the Private short furlough; the man has behaved so well and been so useful that now his Regiment is to be removed from Wellington, with the sanction of the Officer Commanding his Regiment, I have the honor to request that His Excellency the Commander-in-Chief may be moved to place Private Harlow's services at the disposal of the Department Public Works with the view of his being employed on these works in the position he now holds.

2. I am prepared to pay the Private his Regimental pay, compensation for rations, and such further amount as will make the total of his pay, inclusive of working pay, up to Rupees 40 per mensem, to be eventually increased to Rupees 50 per mensem, subject to continued good conduct. Private Harlow expresses himself as being perfectly satisfied with the terms named, and is most anxious to be allowed to remain on the works.

3. Should any exception be taken to my application on account of the Private's Regiment being under orders for another Presidency, I presume there will be no difficulty in ordering his removal to any other Corps in the Presidency that His Excellency the Commander-in-Chief may think necessary.

Submitted to Government with a recommendation that Major Farewell's request be complied with, and that application be made to His Excellency the Commander-in-Chief, through the Military Department, for the services of Private Harlow of the 105th Regiment Light Infantry.

Sir,

Having found the work of driving and firing the 10 H.P. Steam Engine attached to the Brickmaking Machine lately sent up on these works to be very heavy and requiring actually more physical strength than is possessed by the Lads attached as apprentices to this Establishment I applied to the Officer Commanding H.M. 105th Regiment at Wellington for the services of Private W. Harlow Regimental No 325 of the Regiment under his Command who is by trade an Engine Driver and Fireman, which application was kindly granted by giving the Private short furlough; the man since he has arrived so well and proved so useful that now his Regiment is to be removed from Wellington with the sanction of the Officer Commanding this Regiment, I have the honor to request that His Excellency the Commander in Chief may be moved to place Private Harlow's services at the disposal of the Department Public Works with the view of his being employed on these works in the position he now holds.

2. I am prepared to pay this Private his Regimental pay Conservancy for Cantonments and such further amount as will make the total of his pay including of working pay up to Rupees 40 per mensem to be eventually increased to Rs 50 per mensem should he continued good Conduct. Private Harlow has proved himself as being perfectly satisfied with the terms named and is most anxious to be allowed to remain on the works.
