Dated <u>31-1-</u>	<u>1866.</u>

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department
31st January 1866.

Read the following papers :—

No. 801. From the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Cuddapah, 21st December 1865, No. 186.

1. With reference to paragraph 2 of G. O. No. 2,541 of the 31st August 1865, calling on me to report whether the Bookacherla project holds out such prospects of success, &c., as to make it advisable for Government to have it properly investigated, I beg to inform you that, having inspected the proposed Bookacherla tank and the country between it and the Pennair river, I am of opinion it is a scheme that gives every prospect of being very remunerative, and would strongly recommend that a good investigation be made.

2. I would beg to suggest that Mr. Wilson, who has charge of the Anantapoor Range, be deputed to carry out the investigation, which I believe he could complete between January and April; all the new works in his Range are in a very forward state, so far as the money allowed for this year is concerned. He takes an interest in the project, as it is entirely for the benefit of tanks in his Range. To assist him and enable to complete the investigation quickly, he would require an Overseer in the survey operations and an extra number of about six Lascars. The cost of the Overseer, Lascars, and contingencies for four months would not be more than Rupees 700, and I would request the sanction of Government for this amount if my proposition meets with their approval.

Referred to the Controller of Public Works Accounts, who will report whether the sum of Rupees 700, reported to be required, can be spared from the general allotment for Establishments.

FORT SAINT GEORGE,
5th January 1866.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government, P. W. D.

No. 802. From the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 9th January 1866, No. 2,695.

With reference to the letter from the Superintending Engineer, 3rd Division, No. 186, dated 21st December 1865,

1 Letter.

forwarded for my report, I have the honor to state, that as there are sufficient funds available from the grant of 20,000 Rupees to meet the charges of the temporary survey establishment, the Government may sanction the application of Major Moberly from that source, as there is not any likelihood of funds being available from the general allotment for Establishments, as the Conservancy Establishment has been transferred to the Public Works Department without any provision being made in the Budget for its

803. ORDER THEREON, 31st January 1866, No. 384.

CIVIL WORKS, No. 120.

As it is unlikely that funds will be forthcoming within a reasonable period for carrying out the Bookacherla tank project, the Government are of opinion that its investigation may be deferred until a qualified Officer with a suitable establishment can be deputed to undertake the duty in a careful and satisfactory manner.

From, 21st December 1865.
The Superintending Engineer
3rd Division.
To, The Secretary to Government
P. W. Department.

Sir,
With reference to para 2 of G.O. No. 2541 of the 3rd August 1865 calling on me to report whether the Bookacherla project holds out such prospects of success as to make it advisable for Government to have it properly investigated I beg to inform you that, having inspected the proposed Bookacherla Tank and the country between it and the Pennair River, I am of opinion it is a scheme that gives every prospect of being very remunerative and would strongly recommend that a good investigation be made.

2. I would beg to suggest that Mr Wilson who has charge of the Anumta poor Range be deputed to carry out the investigation which I believe he could complete between January and April: all the new works in his Range are in a very forward state so far as the money allowed for this year is concerned. He takes an interest in the project as it is entirely for the benefit of Tanks in his Range. To assist him and enable to complete the investigation quickly he would require an Assistant in the survey operations and some extra numbering about Rs 2000. The cost of the survey, Lacars and contingencies for four months would not be more than Rs 700 and I would request the sanction of Government for this amount if my proposition meets with their approval.

I have the honor to be Sir,

W. Wilson Major R.E.
Superintending Engineer
3rd Division.

Office of the Comptroller of
Public Works Accounts.

 Colonel C. A. Orr. P.E.
 Secretary to Government. M.D.

With reference to the letter from the
Superintending Engineer, 3^d Division No. 186,
dated 21st December 1865, forwarded for my
report, I have the honor to state, that as there
are sufficient funds available from the grant
of 20000 Rupees to meet the charges of the
Temporary Survey Establishment the Govern-
ment may sanction the application of
Major Moberly from that source, as there is
not any likelihood of funds being avail-
able from the general allotment for
Establishments, as the Conservancy Establish-
ment has been transferred to the Public
Works Department without any provision
being made in the Budget for its est.

Have the honor to be
Sir,

Your most obedient servant.

Proceedings of the Madras Government
Under date the January 1866.
Read the following

From the Supt Engineer of the
3rd Division.

Reports on the investigation
of Bookacherla project in the Anam. (There enter 21 December 1865/1866)
Superior Bellary District.

From the Controller of P.W. Accounts.
Intimating that the charge for temporary survey establishment applied
for by the Supt Engr. 3rd Div may be met
from the grant of Rs. 20,000.

The Government approve
of the arrangements which are
suggested by the Superintending
Engineer of the 3rd Div for the
investigation of the Bookacherla
Tank project in the Bellary
District, and direct that the
cost of the temporary establish-
ment required for the purpose
be charged to the item of
Rs 20,000 allowed in the Budget
for temporary establishments.
