*Proceedings of the Madras Government, Public Works Department,
5th January 1866.*

No. 79. Read the following letter from the Commissioner for the Government of the Territories of His Highness the Maharaja of Mysore, to the Secretary to Government, Public Works Department, Fort Saint George, dated Camp Davengere, Chituldroog District, 16th December 1865, No. 4,154-37:—

1. With reference to my letter 5,420-40, dated 24th April, paragraph 2, on the subject of the proposed construction of a Reservoir at Luckhowulli and the prohibition of any extension of Teak planting in the immediate neighbourhood, which was ordered to hold good for one year, I have the honor to enquire whether His Excellency the Governor in Council is opinion that this prohibition should still be insisted on.

2. I understand that there is little probability of the Irrigation Company commencing the project at present, and under these circumstances it does not seem expedient to suspend planting operations indefinitely, as the interests of the Mysore State would in this case suffer materially.

No. 80. ORDER THEREON, 5th January 1866, No. 38.

CIVIL WORKS, No. 15.

Communicated to the Consulting Engineer for the Madras Irrigation and Canal Company, with a request that he will report, whether, under the circumstances mentioned in paragraph 2, it is necessary to continue the prohibition of the extension of Teak plantations in the immediate neighbourhood of the site of the proposed Luckhowulli Reservoir in the Nugur Division.
